DEEMS WARNING UNJUSTIFIABLE.*"Americans Safe in Sonora," Says Consul Hostetter.**Wilson's Order Is Uncalled for, in His Opinion.**Has Had No Application for Transportation Thus Far.**BY DIRECT WIRE TO THE TIMES!***HERMOSILLO** (Sonora) Sept. 10.—[Exclusive Dispatch] La Voz de Sonora, rebel organ, has interviewed United States Consul Hostetter upon the circular note sent to the Sonora authorities by United States Colonel Frederick Simpich of Nogales, Sonora, urging Americans to leave Sonora. Consul Hostetter was asked his opinion regarding the notices in question. La Voz de Sonora prints his reply, translation of which follows:

"I know that the same note was sent to all the chiefs of both parties in Mexico, but as regards Sonora, I suppose that there has been no justification for it. All over the State my fellow-citizens have met with no molestation. There is no reason for believing that in the future they will suffer any."

Consul Hostetter was asked how many requests he had received to be sent back to their country. He replied:

"Up to date, it may happen that three, four, five or more persons may come to me asking for means to be sent back to their country, but they will be exceptional cases and I can consider them as the desire to make a pleasure trip as tourists, not merely as a form of coming to live in the State of Sonora. I should remark, nevertheless, that I am not making references to Guaymas, exception to which I make beforehand, for if there are any Americans living in that town, it would be better for the United States from a fear of considering themselves without guarantees, that responsibility and mistrust cannot be laid at the door of the Constitutional government, but at that of Huerta, the circular in question having been drafted in the Constitutional agent in Guaymas in order that likewise giving the same to the attention of Gen. Ojeda, who will communicate it to whom it concerns."

DEMOCRACY HOLDS SONORA.*Rebels Call Election Despite Maytorena's Edict and Theirs Troubles Impending.**BY DIRECT WIRE TO THE TIMES!***NOGALES** (Ariz.) Sept. 10.—[Exclusive Dispatch] Democracy is in full swing in the part of Sonora held by the rebels. The Pequena in defiance of Maytorena's edict that no elections should be held ahead of schedule, has held a general election of its own, and the rebel command has around its headquarters, the city of Douglas, and he has paremptorily declared null and void the municipal elections held in Cananea, Naco and Agua Prieta. Maytorena proclaims anarchy that in place of the people electing their own municipal officials will name military officers to fill such positions.**REBEL MAYOR IN FLIGHT.***Executive of Cananea Takes Refuge in Douglas Charged With Misappropriating Funds.**BY DIRECT WIRE TO THE TIMES!***NOGALES** (Ariz.) Sept. 10.—[Exclusive Dispatch] The rebel Mayor of Cananea, Carlos N. Durazo, is in Douglas, where he took refuge after flight from Cananea. A charge hangs over him in Sonora of having misappropriated \$4,000 pesos, comprising monies collected by him for the State. Involved with him it is reported was Demetrio Martinez, Justice of the Peace of Cananea, who was intercepted in his flight and arrested at Agua Prieta. The charges against Durazo were filed with the judge of the first instance. A second trial of the attempt to seduce him, Durazo made for the American side of the line stating that he would remain in Douglas for an indefinite period.

Durazo denies the charges which he says are the result of political difficulties between him and Gov. Maytorena because of his (Durazo's) refusal to call off the municipal elections in Cananea by order of Maytorena. He states that the elections were called for the last day of August, but that on the day preceding, Maytorena on his own authority, after previously leaving Sonora, issued an order under his jurisdiction. He recently completed prison inspections on Puget Sound and at the San Quentin State prison, where naval offenders having long terms to serve are confined.

PROFITABLE PUBLICITY.

A newspaper's value as an advertising medium is necessarily measured by its circulation. Circulation, however, involves the character and buying capacity of a paper's readers, and means more than mere distribution.

There is probably no other city in America in which one newspaper so completely outclasses its contemporaries in both quantity and quality of circulation as does The Times in Los Angeles. This journal is not turned to by its subscribers for momentary amusement, as is the case with many other newspapers, but it is read regularly and believably by the rank and file of our citizenry, and is an important factor in the life of the majority of the respectable, thinking, earning, industrious and buying men and women within the radius of its circulation.

The Times does not issue a Sunday paper Saturday night, send incomplete editions to out-of-town points, misbrand its editions or resort to any other subterfuge to deceive its advertising patrons, or make its circulation appear to be larger than it actually is.

The Times' circulation figures are based on the number of copies that go to bona fide subscribers, and advertisers who desire to reach the maximum number of buying readers at a minimum cost cannot afford to ignore its pre-eminent value as a publicity medium.

The Times' tremendous popularity, and the profitability of its columns to its advertising patrons, are attested by the fact that it regularly prints a greater volume and a greater variety of liner and display advertising than any other newspaper in the world.

The Times covers the richest of all fields for the advertiser with less waste in its circulation than any other medium, and no advertising campaign can be conducted in Los Angeles and Southern California at the right proportion of cost to results without using its columns.

board created in his forced war loan decree number ten, which board will determine from information supplied by political authorities of the different towns what persons or corporations are not in sympathy with the rebel movement so that the taxes can be stiffened to go to fund calls for a loan to help subsidy. It is expected that there will be numbers of cases reported to suit the personal feelings of the political authorities.

NOGALES (Ariz.) Sept. 10.—[Exclusive Dispatch] An American gunboat is on the way to Salina San Jose, a port at the mouth of the Yaqui River, to bring away some hundred Americans who are believed to be in danger as the result of the recent Yaqui Indian uprising. American Consular Agent Vald J. Glynn is expected by State officials and supporters of both Gov. Sulzer and acting Gov. Glynn.

The rebel forces are becoming more democratic at times when the entire rebel army will be forced to commence the long and tiresome retreat to Hermosillo. Gén. Ojeda and Barron have established their base of supplies at Maytorena, moving the supplies and armored trains slowly north. Rebel Col. Alvarado is in command of the Sonora Gén. Obregon, still suffering from the ill effects of a sunstroke several months ago.

The rebels accuse the Chinese of having caused the shortage of Mexican silver coin which the rebels have. The Celestials have set up bands of robbing and kidnapping, thinking they can implant the silver with fiat money in denominations of 25 and 50 cents Mexico.

Advice received here state that a column of 4,000 Federals from Chihuahua will co-operate with the columns of Ojeda and Barron and place themselves in the defensive.

It is stated that within the next thirty days, 20,000 Federal troops will be operating in Sonora against the rebel army.

MAYTORENA DECREE PUZZLING.

State Department is Wondering What War Subsidy Will Do to Americans.

[By Direct Wire to the Times.]

WASHINGTON, Sept. 10.—State department officials were puzzled today to interpret the latest decree of Constitutional Gov. Maytorena of Sonora, as affecting Americans. Consul Dye at Nogales reported that Gov. Maytorena had ordered that a tax of 100 pesos be placed on a forced subscription on all capital invested in Sonora belonging to persons or corporations known to be enemies of the "cause of the Constitutionalists." The Governor also has prohibited the requisition of property other than military property from persons and places not engaged in the rebellion to be given the sale of domestic products of a value exceeding \$250, without his special consent.

While officials here are somewhat apprehensive that the so-called tax on enemies of the "cause" may work to the advantage of Americans, it was doubted that anybody would suffer from the alien property order.

Maytorena Orders All Not in Sympathy With Rebels to Give Up Monitions.

[By A. P. NIGHT WIRE TO THE TIMES.]

DOUGLAS (Ariz.) Sept. 10.—The Estadito, a Sonora official paper, in its issue of September 5, ordered foreigners and Mexicans not in sympathy with the Constitutional movement to surrender their arms and ammunition. It was ordered that the documents be made within forty-eight hours to the nearest insurgent authorities.

Copies of this paper received here today caused subdued excitement. The warning was connected with the announcement that just previously Gov. María Maytorena, insurgent Governor of Sonora, in which he commented on the probable outcome of intervention in Mexico by the United States. The Governor's proclamation said:

"It would mean a war in which all Mexicans, without regard to their political creed, forgetting their domestic divisions, would comply with the duty of patriots, and unite when the national dignity is jeopardized as we have done in other vital moments of our national life."

The proclamation as published in the Estadito provides that failure to deliver arms is punishable by a fine of not more than 100 pesos, or imprisonment of no more than 100 days, or both for each arm or each hundred cartridges. The punishment for the offense was offered to the informant.

A charge hangs over him in Sonora of having misappropriated \$4,000 pesos, comprising monies collected by him for the State. Mr. James Conners says Duffy's Pure Malt Whiskey built him up so that he successfully passed three different physical examinations by the same life insurance company which formerly rejected his application. No wonder he will not accept substitutes for Duffy's product.

"I have great faith in your wonderful remedy which I have taken regularly for the past twenty-five years. Before I took Duffy's Pure Malt Whiskey I was subject to chills and heavy colds in the winter and had a very poor appetite. My family physician advised me to take a tablespoonful of Duffy's Pure Malt Whiskey before meals. I followed his directions and found it created an appetite, and while taking it I was not subject to the cold chills that I formerly suffered with.

Railroad Record. UNION PACIFIC MAY CUT MELON.

Millions from Espee Stock
Wait to Be Divided.

Shares Jump Four Points
as Result of Rumor.

Action to Be Decided When
Judge Lovett Returns.

(BY DIRECT WIRE TO THE TIMES)
NEW YORK BUREAU OF THE
TIMES, Sept. 16.—[Exclusive Dispatch.] With the impetus given the story that Union Pacific directors will declare a large extra dividend out of the proceeds of the Southern Pacific stock sale on the return from Europe of Judge R. E. Lovett, Union Pacific shares were bid up to 158 1/8 today, an advance of four and a quarter points above Tuesday's close.

Ever since it became known that the Union Pacific would be compelled to dispose of its Southern Pacific control, Wall Street has been speculating on the uses which would be made of the cash to be received. It has been taken for granted that the company would not reinvest the proceeds in other stocks. Furthermore, the company is so well supplied with working capital that it could not use more than a small part of the \$75,000,000 paid from Southern Pacific stock.

Union Pacific directors have not discussed among themselves any plans for the ultimate use of the surplus cash, either in meetings or informally. It was said yesterday by members of the board:

FAVORS LARGE DIVIDEND.
It is known that at least one director is in favor of paying a large extra dividend out of the cash surplus accumulated out of earnings, after which the Southern Pacific may be added to working capital to replace the amount so distributed.

The Union Pacific board holds its regular monthly meeting tomorrow, at which only routine matters are scheduled for action. A director said that the question of using the Southern Pacific money would not come up at this meeting, nor within the next few days.

As a result of the advantage taken by many of the subscribers of the opportunity to invest their money for their shares in full, the Union Pacific has already received \$45,000,000 in cash. It is understood that this sum has been used for the purchase of Pennsylvania coal cars which have been used to buy commercial paper. Inquiries were recently made of hundreds of small town banks in the company's territory as to whether they had any commercial paper which the could offer for money to be used in the crop-moving period, but the responses were disappointing, and the larger part of the money has been lent out on call.

MAY PAY OUT CASH.

One suggestion is that the Union Pacific will declare an extra cash payment of \$25 a share out of the Southern Pacific money. This would consume \$54,150,000 of the \$75,000,000 balance being kept for improvements and other needs.

In view of the long absence from the city of Judge Lovett and the uncertainty of the present money market, it was said today that it was unlikely that the board would take any action regarding the disposal of the Southern Pacific money would be made before the middle of October at the earliest.

SEATTLE, Sept. 16.—Thirty convicts from Walla Walla State Penitentiary under no restraint except their word of honor to attempt to escape, arrived here by train last night, spent the night at a hotel and today roamed about the streets of Seattle. They are greatly enraged. We are told. It is not improbable that the convicts will throw out the whole Pomerene amendment on account of this trick.

Would Like to Disbar Lawyer They Say Helped to Ship Them Out of Oregon.

(BY A. P. NIGHT WIRE TO THE TIMES)
SALEM (Or.), Sept. 16.—Robert O. Graves, prominent attorney of Marshfield, has been ordered to appear before the Supreme Court, October 17, and show cause why he should not be disbarred for alleged activity in connection with the recent strike.

J. W. Edgeworth and two other Industrial Workers of the World from Marshfield on June 25. The complaint against Graves was made by C. H. McLaughlin and alleges that Graves was spokesman for and leader of the deportation squad.

Chief White says the women, now that they have the right to vote, are going to see that municipal affairs are conducted properly and that the White trial will be a forerunner of what is to come.

Federal Officer Takes Berkeley Student in Charge for Alleged Misuse of Mails.

(BY A. P. NIGHT WIRE TO THE TIMES)
BERKELEY (Cal.) Sept. 16.—Stephen E. Dunn, a sophomore at the University of California, was arrested on charge of misuse of the mails made against Dunn by J. McDonald, a rancher of Turlock, father of Miss Elizabeth McDonald, to whom Dunn is accused of having addressed improper letters. Dunn, 20 years old and is son of John Dunn of Modesto. Following the arrest Dunn was bound over to stand trial by the Federal grand jury and his bond fixed at \$1000.

Men Alleged to Have Deceived Texas Banker Indicted at Terre Haute, Ind.

(BY A. P. NIGHT WIRE TO THE TIMES)
TERRE HAUTE (Ind.) Sept. 16.—John Collins, Hugh McGinnis and Charles Morris, said to be "Chapie" Morris, arrested here a week ago in connection with the swindle of Captain Shaw, a Houston (Tex.) banker, and seven others were indicted by a grand jury here yesterday in connection with swindles said to aggregate nearly a quarter of a million dollars. They are alleged to have secured \$7000 which Shaw was induced to invest in a mythical Missouri land deal.

S. C. Cunningham and C. C. McGehee of Ft. Worth, Tex., who say they lost about \$5000 on a similar deal in Missouri lands, arrived here yesterday and testified before the grand jury. According to the two Texans they bet on a fake prize-fight.

BIG TIM" STILL MISSING.

New York Congressman Who Left With Dollar in His Pocket Cannot Be Found.

(BY A. P. NIGHT WIRE TO THE TIMES)
NEW YORK, Sept. 16.—Congressman "Big Tim" Sullivan, who disappeared from his brother's home a week ago yesterday with only a dollar in his pocket, was missing this afternoon. A report that he had been found today at a hotel in Smithtown, Long Island, proved unfounded. His friends were anxious, as he has not recovered from a mental breakdown of a year ago.

(BY A. P. NIGHT WIRE TO THE TIMES)
SEATTLE (Wash.), Sept. 16.—John W. Conidine, partner of Congressman Timothy Sullivan in the theatrical business, said today that he had a telegram directed from Sullivan that was enroute to him in New York City, according to Conidine's information, and no harm has come to him.

(BY A. P. NIGHT WIRE TO THE TIMES)

SAVANNAH (Ga.) Sept. 16.—Two men were killed and three seriously injured as a result of a boiler explosion on the United States torpedo boat Craven on Tybee Island shortly after noon today.

The dead are:

CHIEF WATER TENDER MCFAFF.

WATER TENDER MILTON.

Injured:

Chief Mechanic's Mate Swinn.

Water Tender Daugherty.

Oiler Gabbert.

The Craven, which left Charleston, N. C., for Savannah, was making good headway when the accident occurred. Milton was dead when brought to deck and McCaffrey lived but a short time.

It is believed by officers of the Craven that the explosion was due to a defective gauge.

After the explosion, the Craven drifted helplessly until rescued by the pilot boat Estill and the tug Cynthia. She was towed to Ft. Scriven on Tybee Island, where the dead and wounded were removed to the port hospital.

STONE PUTS A RIDER IN THE BRANDY TAX CLAUSE.

(BY A. P. NIGHT WIRE TO THE TIMES)

WASHINGTON, Sept. 16.—[Exclusive Dispatch.] The California wine industry today indignantly denounced what they call a breach of faith in the form of a "joker" slipped in the tariff bill yesterday by Senator Stone of Missouri, which if it became law, would give Ohio and eastern makers of spurious wines an immense advantage in selling their fake products in competition with California pure wine.

Stone, who speaks very indistinctly, during his defense of the tariff bill, got up and moved an amendment to the Pomerene

amendment, which would add a tax of \$1.10 per gallon on all brands used in fortifying California sweet wines. Stone's amendment, which few

Senators heard him read, but upon

the vote automatically voted "yes" pro-

vides that dry wines (the kind made in Ohio and the East) can contain 20 per cent of sugar and 20 per cent of water without paying the 25 cents per gallon tax imposed on spurious wines in the Pomerene amendment.

When this became known, it was

said that the California wine industry

had been greatly injured.

It is believed that the Pomerene

amendment will not pass.

After the explosion, the Craven

drifted helplessly until rescued by

the pilot boat Estill and the tug Cynthia.

She was towed to Ft. Scriven on Tybee Island, where the dead and wounded

were removed to the port hospital.

Names Open-Town Gang Municipal Scandal.

Motion Picture Convention in Full Swing.

BAN DISEO, Sept. 12.—Councilman A. N. Manner, about whose heat

center of the political social

appears to have gathered, gave

opinion today as to what fact

really behind the move to oust

him.

"I have an idea," he said, "that

people who are agitating this

trouble are the ones who from

time have used all the influ-

ence at their command to secure a

town." When we refused to allow

the machines to be operated in

saloons and cigar stores these

men said there would be a recall

having a principle and holding

constituted an offense against my

of office then I am willing to let

them to their accusations."

Several disgruntled citizens,

are known to have a grudge ag-

ainst some of the officials, are believed

to have banded themselves together

in an effort to recall the officials

and when they did

it was because he was consider-

able of dealing fairly and square

with the problems it presented.

He is liberal, according to his friends,

but the all the time he has under

direct police supervision

no infringement of the law is

wik immediate action.

American Defends Actions in Political Mix-up.

Boys Open-Town Gang for Municipal Scandal.

Movie Picture Convention on in Full Swing.

San Diego, Sept. 10.—Councilman J. M. Hayes, about whose head the members of the political scandal seem to have gathered, gave his views today as to what faction is really behind the move to oust him from office.

"He has no idea," he said, "that the people who are agitating this latest move are the ones who from time to time have used all the influence at their command to secure an 'open road' to be operated in the烟和 cigar stores these persons will there would be a recall. If I bring a principle and holding to it, I am an offence against my oath of office when I am willing to listen to their demands."

Friends disgruntled citizens, who are known to have a grudge against some of the officials, are believed to have joined themselves together at this time to bring the officials from office. Hayes is known to be a strict follower of the law and when he was placed in charge of the police department it was because he was considered capable of dealing fairly and squarely with the problems it presented. In the matter of drinking he is holding his breath, according to his friends, but he is sure that all such matters have been left to the direct police supervision, and enforcement of the law is met with毫不hesitation action.

EXCHANGE NO ROBBERY

Uncle Sam will be accepting the greater of two evils if he trades Harry Shaw for Emmeline Pankhurst. We can take better care of the one-man slayer than of the universal firebrand. State authorities can decide, even though alienists disagree, but who can minister to a mind diseased? Especially a Pankhurst mind! It refuses to be fed, forcibly or otherwise.

PREPARED FOR WAR.

We are glad to have Senator Penrose's assurance that in the best sense of the word we are ready for war, should it be thrust upon us. As far as national bravery, patriotism and resourcefulness go, we know that we have no peer among the nations. But battleships also count, and a battleship, like Rome, cannot be built in a few months. Our naval programme is still far from complete.

EXPLAINED.

A Duchess at London has given birth to a son. She thinks that dieting helped determine the sex of the child. For many months she ate no food containing sugar. Are we to understand that this theory accounts for the fondness of girl babies for chocolate creams between the ages of 14 and 24? If we may be allowed to answer our own question, we will say that eugenics and embryology do not account for anything. They are not even established theories. Each is only a vague hypothesis. The old argument that man breeds animals with more care than humans carries no weight. Man is an animal, but he is conscious and he deals with forces which flesh and blood do not reveal.

COALS OF FIRE.

Relief has at last come to the American refugees, unpatriotically advised by President Wilson to "get out" of Mexico. Wilson stopped short after giving this unheroic counsel, and only the most meager means of transportation were provided for our citizens in Mexico. President Huerta, the man whom Wilson virtually refuses to recognize, has come to the help of these unfortunate Americans and supplied them with sufficient funds to pay the difference between a first-class passage and the steerage accommodations arranged for them by their own government.

Nor is the provisional government in Mexico just now particularly flush of funds. Whatever may be said of Huerta, he certainly is no power. The action of our Democratic administration hardly redounds to the credit of our prosperous republic.

SUGAR AND SONS.

The search for an infallible prescription for securing male offspring dates back to antiquity. The old Egyptians trusted to the influence of the stars; the Romans consulted the entrails of sacrificial beasts; savages appealed to the incantations of medicine men; later on aristocrats chose mates with good democratic blood in their veins; finally science tackled the problem from a psychological standpoint. But it has remained for the Duchess of Roxburghe to offer a simple and plausible solution.

Sugar. In that one word is summed up the secret of birth. By abstaining from the use of sugar a male heir may be insured to any longing mother. The connection between sugar and daughters is obvious. We have it in the old nursery rhyme:

"What are little girls made of?
Sugar and spice
And all that's nice,
That's what little girls are made of."

Naturally after a sweet and sugary diet little girls will be born. The Duchess at least is thoroughly convinced of the truth of the rhyme. Sugar may be one of the causes of sex birth—and there may be others. National virility, for instance. The Duchess of Roxburghe is an American.

MITTING THIS CAPITAL.

Many proper names have passed into the language and become common parts of speech. Mackintosh gave his name to a garment that is no longer spelt with a capital "M." Our roads are macadamized in honor of a Scotchman, and from an Irish captain we get the boycott. The guillotine preserves the name of a French doctor; nicotine is Jean Nicot in another form. A popular form of light refreshment originated with Lord Sandwich, otherwise unknown to fame; Mrs. Bloomer is responsible for another common noun essentially feminine. Billingsgate and Bowery are common descriptions for a still more common form of speech; science has given us volts and amperes and watts and marconograms, all originally proper names.

These are only a few instances, but we see vast possibilities of enriching the language in the future by the colloquial use of proper names. Why should not an orator some day address an audience in the following terms: "My friends, we propose to taft the administration, too long wilsonized with thaw-some policies. We refuse to have our voters Roosevelted into submission; we refuse to be huertized out of existence by any John-Lind tactics. You can bryanzise part of the people, but all independent thought cannot be hiramjohnized out of the popular brain, nor will pankhurstian gomperize or tweitmoe the hearts of the people by threats of zepesian brigandage."

A general absorption of proper names, it can plainly be seen, will add greatly to the variety of our rhetoric.

PROGRESSIVE FREE TRADERS.

The votes of the only Progressive Senators—La Follette and Poindexter—for the free-sugar, free-wool, free-meat, free-flour, free-vegetable tariff bill will surprise and confound Progressives who have been claiming that the Progressive party favors a protective tariff.

But the defection of these two Senators is really—as Toots said when the girl refused his offer of marriage—"of no consequence." It is offset by the defection from the Democratic party of Senators Ramsdell and Thornton, and it is more than offset by the defection from the Progressive party of 6750 voters in the Third Congress District of Maine.

Political in these days resembles an old-fashioned quarrel. After the temporary whirl and seeming confusion that attends upon the order "change partners," and each fellow finds himself for a brief period dancing with some other fellow's girl, comes the final order, "swing partners to places," and with a joyous crescendo from the fiddles each loyal girl cuddles under the encircling arm of her own partner and they walk to their seats "two souls with but a single thought."

The action of La Follette and Poindexter in voting with the Democrats for a free-trade tariff will hasten the rush of Progressives back to the Grand Old Party. The Third District of Maine has been the pioneer in a movement that will soon be nation-wide.

THE CONTEST IN MAINE.

It was a great fight they had in the Third Maine Congress District. "The vaulted aisles of the dim woods rang" with the voices of the great orators of the land. Secretary Redfield went to Maine late in August. Gov. Cox of Ohio and Speaker Champ Clark and Representative Oscar W. Underwood were invited, and speaking dates were made for Congressman Palmer of Pennsylvania, Cullop of Indiana, McGlynn of Maine, Rainey of Illinois, Carlisle of Virginia, Murray of Massachusetts, Dixon of Indiana and Reiley of Connecticut.

The Republicans called for the services of Senators Cummins and Borah, and Congressmen Greene of Iowa, Anderson of Minnesota, Kahn of California, Foss of Oklahoma, Towne of Kansas and Hawley of Oregon.

The Progressives had a corps of speakers led by Congressman Victor Murdock of Kansas. The big Bull Moose, with his newly-acquired tarpsichorean accomplishments, had returned from the Indian country a fortnight before the Maine election, but not all the plies of the Progressive committee could draw him from the safe seclusion of Oyster Bay. Like the kind husband who assured his dying wife that she need not fear he would marry her niece after she was gone, for he "had had pie enough in that family," the colonel declined to meddle in the Maine melee. He preferred to "snuff the battle from afar off"—as far as possible.

The final blow, the coup de grace, was administered to the Democratic candidate by President Wilson, who wrote a letter endorsing him. That, as the gifted philosopher Roosevelt would say, "settled the cat hot."

Hundreds of Maine Democrats who did not believe in the Wilsonian policy of throwing the wool growers and the sugar growers of the country into bankruptcy remarked when Wilson's endorsement of Pat-tangall was published, as did the Irishman when the Jackass he was mounting kicked at a fly and thrust a hind hoof through the stirrup, "Be jaffers, if you are going to get on it is time for me to get off."

SENATORIAL ANANIAS.

A One of the incidents of the controversy over free sugar went to demonstrate that reputable Democratic Senators—there are reputable Democratic Senators, appearances to the contrary notwithstanding—are not unwilling when dealing with the tariff question to wander far from the teachings of pious mothers and—not to put too fine a point upon it—he like a horse thief caught with the goods by a vigilance committee.

Senator Martine of New Jersey said, in a speech in the United States Senate: "Mr. George F. D. Trask is a gentleman whom I know, a man of wealth and large business interests, living in Orange, N. J. He writes to Representative McCoy, thereby putting himself on record as one exception in believing that the sugar interests are not going to be destroyed. Mr. Trask urges that free sugar will advance not only the people's interests, but will advance at the same time the interests of the sugar planters. He has bought and invested largely in Louisiana lands in consequence of and in the hope of this step, and he finally says: 'I am heartily in favor of free sugar. I think it will be a fine of free sugar. I think it will be a fine of free sugar. I think it will be a fine of free sugar.'

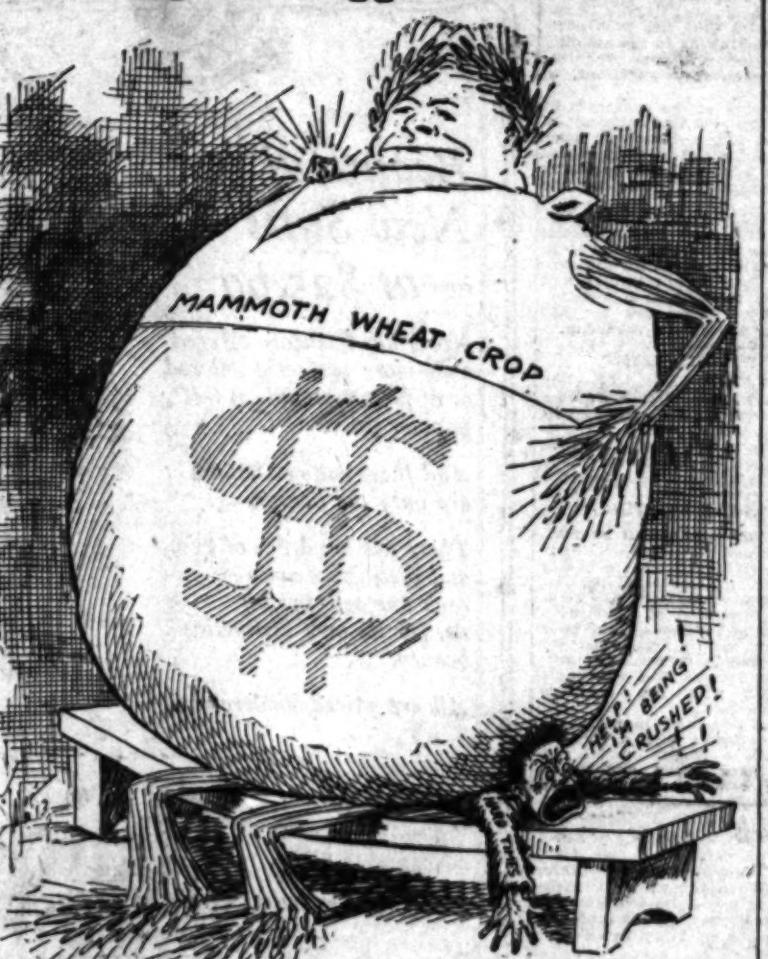

I desire that this shall be known and go on record as the testimony of a capable, ingenious, bright and successful business man and investor, who is willing to invest his money notwithstanding the calamity howlin' the sugar planters."

Senator Thornton of Louisiana was astonished at the statement of Senator Martine of New Jersey. He took the responsibility of getting in communication with Mr. Trask of Orange, N. J. The result was a letter from that gentleman reading as follows:

"You ask me whether I stated that I was interested in Louisiana lands and believed that Louisiana planters could make sugar profitably under free sugar. I have never made the above statement. I do not own any land or any interest in sugar lands in Louisiana. I have never expressed the opinion that the sugar planters of Louisiana could make money under free sugar; I do not know whether they could or not."

"I am in favor of a reduction in the present duty on sugar and of its ultimate abolition, and I did express myself to that effect in a recent letter to my Congressman, which I was afterwards told did find

Here Again, Bigger Than Ever.

SAGE BRUSH JUSTICE.

BY TOM FITCH.

What rent or charge was made on the Comstock in the early times will fail to remember Bill Gearhart, who acted as driver of the stage between Virginia City and Carson? He had an eye that could see a fly speck on a telescope pole fifty feet away, and an arm that could take a 100-pound bulldog bar from the ground and toss it into the boot of the stage.

He was the friend of all four-legged animals. As was said of him by an admirer, "Bill loves horses and dogs and cats. He loves everything that is beastly." And the creatures appreciated him. There was not a horse of his acquaintance that would not whinny with delight at his approach. There was not a dog whose narrative would not vibrate at the sound of Bill's voice, and cats would leap into his lap and purr at his slightest invitation.

Bill was president, secretary, board of directors and sole stockholder of the Nevada Society for the Prevention of Cruelty to Animals by the process of inflicting cruelty upon humans who were cruel to animals.

"Once upon a time," as the fairy stories say, the writer was seated alongside Gearhart on the driver's seat of the Carson stage, when we were brought to a halt by a six-mile team which, attached to a freight wagon, obstructed the road. The driver was engaged in beating one of the mules over the head with the butt of a heavy blacksnake whip, and the poor creature was crouching and cowering under the wagon.

Bill pulled up his team. "Pardner," said he to the teamster, "that's no way to treat that mule." "Isn't it?" responded the teamster. "Well, it's none of your damned business. You come down here and I'll treat you the same way."

Bill wrapped the lines of his team around the brake handle, leaped into the road and advanced toward the teamster, who sprang to meet him, whip in hand, and struck at him. Bill caught the upraised whip with his right hand, snatched it from the grasp of his assailant and, with a tremendous left-hander, caught the teamster under the jaw and landed him all in a heap in the road. He thereupon administered to him on the least responsible part of his person a dose of blacksnake that elicited a roar for mercy.

Bill stooped over him, felt of him to ascertain whether he carried a gun and, finding he had none, raised him to his feet. "Now, pardner," said he, "I'll let you go this time, and don't you beat that mule no more. If you do I shall hear of it, and I'll hunt you up and give you a kickin'" that'll make this one seem like a Sunday-school picnic in comparison."

D. O. Adkison was Justice of the Peace. The beaten teamster caused the arrest of Bill and both he and Bill made their statements of the transaction, which did not substantially conflict.

"Mr. Gearhart," said the judge, adjusting his spectacles, "it appears by the uncontradicted testimony in this case that, while in control of a conveyance carrying the United States mails, your passage was impeded by the complainant and that while in performance of your sworn duty in trying to remove the obstruction you were assaulted by the complainant and in strict defense of your person from injury lawfully resisted the assault. The court finds you not guilty and assesses the cost of this proceeding against the complainant."

"This court has no power to try or punish the complainant for the offense of obstructing the United States mails. But as Commission of the United States District Court it has power to commit him to await the action of the grand jury. It so does. It will defer fixing his trial for three days, at the expiration of which time it will do so, unless he should in the meantime advise the court to go out of the Territory and stay out."

"The court further finds the complainant guilty of violating the statute which prohibits cruelty to animals and will for that offense fine him. Mr. Constable, search the man. What do you find on him? Twenty-four dollars and a watch and a chain. Hand him back his watch and \$6. The costs of the court in the case in which he was complained against are \$8. His fine for cruelty to his horse is \$10. This court stands adjourned."

A Siphon-Bottle Statesman.

[New York Sun:] Thomas Upton Simon, member of Congress from the Fourth District of Alabama, is destined to go down in history as the siphon-bottle statesman. Which is an unfortunate fate.

When the California-Japanese imbroglio was at height Mr. Simon delivered an impassioned anti-Japanese speech on the floor of the House.

"If we must have war," he declared, "or submit to this indignity, I am for war."

Later, in the tariff debate, Representative Johnson of Washington, reproving him for this speech, called attention to the fact that Mr. Simon had voted last year against a belligerent programme, and that he referred to the southerner as "the singing son from the Mississippi," Mr. Simon.

It that doesn't sound like a siphon bottle, what does? The resemblance caught the fancy of the cloakroom Congressional kids, and they are ringing the changes on it whenever Mr. Simon happens along.

HAPPY WORKERS OUT FOR SPORT.**OUTING OF "THE TIMES" SCHOLARSHIP CONTESTANTS.****Now Well Located in Their Vacation Home at "The Times" Camp, Catalina—The Fun, the Talk, the Games—Would Like to Stay All Day.****The Times Scholarship contestants, now enroute in their vacation home at The Times camp, Catalina, are enjoying life as only those who have earned a rest can enjoy it.****The Times camp was a delightful surprise, so charming is it located, so perfect is the equipment and so complete are all the arrangements for the happiness of its guests.****There is no spot on the Island Beautiful more fully situated to such purposes. The breezes, which blow across the island, are most refreshing in this canyon; the trees lend ample shade, and there are beautiful views in all directions, including a glimpse of the blue water at the harbor, which runs through the campsite, the eucalyptus trees in Avalon, give a fairy-like appearance to the landscape.****Everything has been delightful thus far, said one of the contestants, who comes in lead in most of the contests. "I am here," he added, "with a melancholy tinge to his otherwise cheerful tone—"if it were only not so far back—or if the walking were better!" You may guess from this how he felt route over.****There are plans in the air for trips around the Island, for swimming matches for rowing parties, marshmallow roasts and "weenie bakes" out on the point.****The camera sharks "take everybody" in whatever attitudes they happen to assume, from the groups around the camp piano, picking "rag time" or grand opera, to the highest****tensioned tennis game, or as they are starting out for their morning dip, in the full dress of bathers, or in one of the justify-famed meals is about to begin. The latter occupation—eating—is one of the principal events of camp life. The cuisine is beyond reproach and the appetites brought to bear upon the cookery are such as only campers know. The camp manager, Mr. Gillies, put to vote how meals should be arranged and it was decided that two a day would interfere least with the many pleasure plans; breakfast at 9, which would give ample time for a dip before noon, and dinner at 4:30, which would give time to dress and band concert in the evening. It was not long after this decision, however, until many were declaring that five meals a day would be none too many.****So easy was it to succumb to the seductiveness of camp life that now, on the second day, the bustle and the hustle and bustle of summer is in the wild bees, which, scented the good things with which the tables are laden, hum busily around the well-filled platters and occasionally lose consciousness in the maple drip down the pane-clothes become "heavy" from the wild cherry juice inside. "Busy as a bee" has otherwise lost significance.****The contestants have naturally fallen into little cliques held together by common interests. Long Beach was pitted against Pasadena and Pomona at tennis, and each city has a banner flaunting from out the doorway of the tent occupied by its representatives.****The groups which rest in the outdoors "living-room" under the drooping branches of the great elder trees discuss at intervals the scholarships which they may select and it looks as though each and every one would be well satisfied with what he or she is able to secure as the reward of the summer's campaign.****Harold Tilton is a great fisherman and has his little wheeled chair taken to the point where he amuses himself by catching fish. Noyes' lecture tour this past spring was so much of a success that he will return in the fall and go farther west than his earlier trip reading his poetry and lecturing on international peace. It was written by Lois Weber, who has the leading role, and like all of her stories it handles one of the vital questions of life.****It is a story of a woman who married for her money, finds out too late that she and her husband are entirely unsuited to each other. Alone in her luxurious room she contemplates the empty years before her. Below a dinner party is in progress, presided over by the husband who married for wealth alone. He is surrounded by his friends, butterfly people, shallow, laughing marionettes who are distasteful to the wife and below her level in every manner. A mad, merry group of people are seated around the table. The wine is red and life is high when some one noticed that the wife is not present. Against her wishes she is forced to join in the revelry.****A wandering musician, passing, is brought in to play for the guests and he at once marks the wife as different from the others of the gay party. From the depths of his soul he plays to her and the disappointed wife understands his music.****Later the husband wishing to rid himself of the wife in order to wed his paramour, a woman of his own type, purchases an unmanly-looking horse, a man-killer, and induces his wife to ride the horse. That evil plan may not succeed, he places a trap under the saddle.****The wife manages the horse for a brief spell, but in a lonely spot the horse runs wild and the girl is thrown to the ground. She is found by the wandering musician who comes each evening outside her window, and plays to her his music that only they can understand.****The secret that the husband has plotted to kill his wife is discovered by the groom and he turns vampire and uses his information to bleed the guilty husband. He follows him from place to place and is his evil genius.****One evening, as has become his custom, the musician places a white rose in the crimples' hand but the rose falls to the ground, for the wife is dead. blossoms and carried a bridal shower of lilies of the valley.

Mrs. Sabine McFarland, maid of honor, was attired in pink chintz, with an overdrap of lace, and wore a short pink veil. She carried a spray of Killarney roses. Adna R. Chaffee, Jr., U.S.A., served the groom as best man. Miss Emeleen Childs also gowned in pink, and the ribbons which formed the aisle through which the bridal party passed to the improvised altar, the bride leaning on the arm of Lieut.-Gen. Chaffee, who gave her into the keeping of the groom.

The bridal party approached Andress' orchestra of this city played the popular wedding march, and rendered soft music during the ceremony.

The service was read in front of a beautiful altar of lilies, asparagus fern, white rose bows, and burning candles at the altar. Father Lilly of St. Vincent's Cathedral.

The bride's table in the dining-room was centered by a mound of white rose buds interspersed with maiden hair fern, and, at the side, a heart-shaped cake in white completed the floral arrangement.

At the conclusion of the wedding trip, Mrs. and Mr. Lloyd-Jones will reside in Montreal, Canada.

Newport House Party.

"The Harvest," one of the cozy beach cottages on the ocean front at East Newport, was the scene of a merry house party recently.

The Misses Agnes and May Rigall, Florence Calderwood, Gertrude Cogan and Helen Veselich, and their chaperone, Mrs. L. J. Rigall, Mrs. C. M. Connelly, Mrs. M. M. Calderwood, who have been passing the summer at South Beach, were hostesses.

Those who journeyed from the city to enjoy the hospitality were Messrs. Albert J. Rigall, Frank Saich, Louis Brill, Stephen Veselich, Anthony Saich, Harry Gilman, Ben M. Brink. They reached East Newport Saturday evening. A roaring fire was on the sand and the party had a marshmallow toast.

Later, games were played and finally the young people donned bathing suits and revolved in the delights of a midnight dip in the surf.

To the World.

Tuesday, last, thirty-five Los Angeles people sailed under the direction of the Southern Savings Bank for a tour of the world. They will first visit Honolulu, Japan, China, the Philippines, Malay Peninsula, Java, Burmah, India, Ceylon, Egypt and motor through Europe. Several of the party will return via the Panama Canal. The outfit will be enjoyed by Mrs. D. V. Ross, Mrs. E. Roberts, Miss E. Kerr, Carlton Kerr, Mr. and Mrs. William Hill, Mr. and Mrs. L. Thomas, Mr. and Mrs. Robert Stith, Mr. and Mrs. Walter R. Brown, Miss Marion Brown, Master Voynay Brown, Mr. and Mrs. E. C. Lockwood, Mr. and Mrs. W. V. Hirsh, Mrs. E. B. McCane, Marjorie Gifford, Miss Nita Ebbe, Mr. and Mrs. L. N. Richardson, John Combe, Miss Irene Combe, Dr. and Mrs. H. R. La Grange, Mrs. Katherine Kent Althouse, Dr. and Mrs. R. Bailey and Mr. and Mrs. John T. Benson.

At Arrowhead.

Charles L. Batcheller of Los Angeles was a week-end visitor at the Arrowhead Hotel. He was accompanied by Mr. and Mrs. Julius H. Moore.

Mrs. Thomas Thorkildsen of Beverly Hills is at Arrowhead, accompanied by Miss Garinger. They are devoting much of their time in the hills and canyons.

Have Returned.

Dr. and Mrs. J. C. Solomon have returned to the city after a two month vacation at East Newport.

Miscellaneous Shower.

Miss Gertrude Rommel of No. 701 Edgemont boulevard entertained Saturday afternoon with a miscellaneous shower in honor of Miss Ruth Long, whose engagement to John Hust of Arizona was recently announced. Miss Adrienne Gieserich of San Francisco was present as a special guest.

The dining-room was artistic with red carnations and ferns, and hand-colored cards bore the names of Miss Clara Long, Miss Eugenie Witzleben, Miss Edna McGahey, Miss Eddie Turner, Miss Alma Smith and Miss Esther Kapple.

Northern Trip Ends.

Miss Rose Guggenheim of Coronado street returned Saturday from a visit to San Francisco.

PROBLEM PLAY FOR MAJESTIC.

BOUGHT AND PAID FOR" BRUTAL INQUEST INTO MATRIMONY.

"The Girl in the Taxi" to Replace "Sherry" at Burbank Sunday. Noted English Actor at Orpheum, Great Bills at Popular-Prized Houses.

Next Sunday night, at the Majestic Theater, William A. Brady's splendid production of the Broadhurst play "Bought and Paid For," will fill an engagement here. It is especially attractive to women.

Virginia has been surfeited with luxury; her every wish has been gratified. Stafford has kept his word; she has grown to love him profoundly but, despite the fact that he is equally attracted to her.

There are many who can drink a glass of wine without apparent result, but Stafford is not one of them. Wine is the key that lets loose the beast inside his brain, that transforms him from a courteous, dignified gentleman into a licentious libertine, a man to be afraid of, a creature to flee from.

There have been numerous lapses on Stafford's part and they are growing in frequency and violence. In act two we are admitted to one of these lapses. It is nothing to his imagination; it is a chapter from the book of life, naked and unashamed. It is a tremendous scene, in which you watch the growing madness of the man and feel the mounting terror of the woman.

It is a tragic scene, wonderfully plotted, but an unpleasant as picture as it can be—indeed—a fact, as it is a madman who breaks down the door of his wife's room and disappears, leaving you saturated with horror.

The right to do as he will with his wife—that is the entire argument. "I bought and paid for you," he says, "and I'll do with my own as I please."

Burbank.

On next Saturday night the Burbank stage will bid a regretful farewell to "Madame Sherry," that fascinating, merry maid of melody that for the last eight weeks has kept the

thermometer in the Burbank box-office up to the boiling point and broken every attendance record in Burbank history.

It was announced last Friday this is positively the final week of "Madame Sherry" and but five more performances remain, every one of which, from all present indications, will be of absolutely capacity proportions.

On Monday afternoon, Oliver Morosco will offer at the Burbank Theater for the first time at popular prices anywhere in America the speedy musical farce, "The Girl in the Taxi," one of the really big music and fun hits of the past year.

The standard of musical

farce production established by the presentation of "Madame Sherry,"

will even be outdone in offering "The Girl in the Taxi" and the same splendid cast that carried "Madame Sherry" to record-breaking success, will have the same opportunity in "The Girl in the Taxi." The girlie is now progressing rapidly and shows that much interest in this change of offering at the Main-street playhouse.

Orpheum has secured him and his English company, for this brief tour.

The Vanias, a grand opera quartette, will be heard in a connected little

opera offered, "The Flamingo's Bride," that differs from the usual

hazard medley of grand operatic offerings. With the quartette is Miss Esther de Lour, a remarkable soprano.

Williams, Thompson and Clegg, the Burbs' Union, and Alma Youlin, the American dramatic soprano, will appear in a group of songs and a few new gowns.

The Edwards Davis act—much dis-

cussed and somewhat mysterious,

but acceptable nevertheless.

The Kingdom of Dreams will hold

as will Ramases, the Egyptian mas-

ter; "Rube" Davis, and the Fels trio.

The usual musical offerings of

the world's news will be features. This, by the way, is the last week—here of

the Bell Telephone musicians, and also

Bill Rogers, the cowboy, at the

Orpheum.

martyrdom of the Christians and the like, are unceasing marvels to all. Thousands have seen the pictures so far, an earnest certification to their worth, and the fact that another week has been arranged in evidence of their popularity.

Lyceum.

There's no stopping "The Traffic," Rachel Marshall's stirring white slave play at the Lyceum Theater. Now in its second week at the Broadway-seat house, it continues to block the traffic in that vicinity every night about 8 o'clock and the audiences that have attended the second week's performances have been fully as large as those who viewed the piece during its first week.

In "The Traffic" Miss Marshall drives home a message and a warning so firmly and convincingly that some of the foremost educators and social leaders are up in the rear, fought for a betterment of the conditions that lead up to the damning commerce in girls that late has become of such enormous proportions as to arouse a Federal investigation, and a unanimous recommendation.

"The Traffic" as a play of social purpose as well as a sensational revelation of conditions as they really exist.

Even the extra matinees have not put the pressure on the box-office and the demand for seats continues to be fully as heavy as before.

This condition has decided the management to continue the engagement of "The Traffic" for just one more week, beginning with the matinee Sunday afternoon, the sale of tickets for which will begin this morning.

Minister's Widow Dies and Leaves a Fortune.

Mine Superintendent Is Safe from the Mexicans.

PASADENA, Sept. 11.—Having established it up last night, the Socialists followed it up last night with another meeting in Central Park. The fact that the City Council last winter determined, after considerable discussion, that it should be the policy of the city not to permit political meetings to be held in the parks has not kept the Socialists from calling meetings there whenever they have been able to obtain the use of a park.

A permit was applied for several days ago and it was granted by the City Commission.

The meeting last night was not so well attended as the last one held, and did not prove very interesting, due to the Sociedad Agricola, who had the gathering with several hours of puerile oratory about the coal mine situation in West Virginia and imaginary connection it might have with California.

The Socialists have for a long time sought the opportunity of holding frequent meetings in the park, but no other political organizations have applied for the privilege.

Word was received here yesterday of the death in Toledo of Mrs. Belle

R. Dunn, widow of Rev. Charles F. Dunn, whose death occurred about twenty-four years ago. Rev. Dunn died from pneumonia, his profession serving seven years ago, but had led a busy life and designed many prominent buildings that stand in different parts of Southern California. He leaves a widow.

The funeral services will be held at the chapel of Ives & Warren at 10 o'clock this morning, and Masons especially are invited to attend. Rev. Leslie E. Learned will officiate. Interment will be made in Mountain View Cemetery.

Mr. Dunn was interested in philanthropic work and took a decided interest in the work that is carried on in Lamanda Park by Rev. Morton C. Hartzel, son of Bishop Hartzel, the famous missionary to Africa. It is thought not unlikely that he made provision for her care for fulfilling the work. Her son here said last night that he did not know whether she had or not.

SAFE IN UNITED STATES.

Miss Oscar L. Kettensbach, who is staying at the Avon Apartments, and who has been greatly worried over the safety of her husband, who is general superintendent of the El Arroyo mine at Los Angeles in the State of Chihuahua, Mex., has received word from him that he and B. Bates, H. A. DeWitt and P. Frederickson are safe in El Paso.

When it was determined to leave Mexico because of the opposition the men of the mining colony, with several of the men as escorts, came first with automobiles, while the others remained behind to arrange things as best they could. They did not follow as soon as they were expected and Mrs. Kettensbach was afraid that they had been prevented from making their way to the northern boundary and had set out on a long, hard horseback trip to the coast. Kettensbach is expected to arrive in Pasadena in a few days.

OLD RESIDENT DIES.

Harry Ridgway, a well-known ardent member of the Knights of Pythias of the Pasadena Lodge of Masons, died yesterday morning at his residence, No. 840 South Madison avenue, at the age of 59 years, after a long illness.

In his letter Plumer declares that there are prospects for an excellent year in business this winter. He will probably arrive in the city the last of November. Many improvements have been made on the hotel.

TO BUILD A NEW HOTEL.

Word has been received by David H. Price, manager of the Hotel Green; that D. R. Plumer, manager of the large caravansary, is soon to build a half-million-dollar hotel at Spring Lake, N. J. Plumer is now in El Paso, and has been there since last Saturday. For years he has made it his custom to pass the winters in Pasadena and the summers in New Jersey.

The building that Plumer expects to put up will, Price says, be about the size of the west building of the Hotel Green, and it will be handsomely finished.

In his letter Plumer declares that there are prospects for an excellent year in business this winter. He will probably arrive in the city the last of November. Many improvements have been made on the hotel.

WIND-JAMMERS AGAIN TALKING.

Create New Crisis in Park Free-Speech Row.

Minister's Widow Dies and Leaves a Fortune.

Mine Superintendent Is Safe from the Mexicans.

PASADENA, Sept. 11.—Having established a precedent, the Socialists followed it up last night with another meeting in Central Park. The fact that the City Council last winter determined, after considerable discussion, that it should be the policy of the city not to permit political meetings to be held in the parks, has not kept the Socialists from calling meetings there whenever they have been able to obtain the use of a park.

A permit was applied for several days ago and it was granted by the City Commission.

The meeting last night was not well attended at the last one held, and about two hours yesterday evening, ten to the Socialists. Sigurd Ruud harangued the gathering with several hours of puerile oratory about the coal mine situation in West Virginia and imaginary connection it might have with California.

He had been here for a long time, sought the opportunity of holding frequent meetings in the parks. No other political organizations have applied for the privilege.

Word was received here yesterday of the death in Toledo of Mrs. Belle

R. Dunn, widow of Rev. Charles F. Dunn, who died in Canada and came to California three years ago. Mrs. Dunn was noted for the phenomenal success she had had in the mining business and is reported to have left a large fortune. She made her home in Pasadena for fourteen years and left here only three months ago. It was her 82 years of age and leaves two sons, Drew Haven Dunn of No. 1905 Garfield avenue, this city, and W. K. Dunn of Cleveland, O. The body was cremated in Chicago and the ashes will be buried in the family plot at Bloomington.

Mrs. Dunn was interested in philanthropic work and took a decided interest in the work that is carried on in Lamanda Park by Rev. Morton C. Hartzell, son of Bishop Hartzell, the famous missionary to Africa.

She had not left her property.

The funeral services will be held at the chapel of Ives & Warren at 10 o'clock this morning, and Masons especially are invited to attend. Rev. Leslie E. Learned will officiate. Interment will be made in Mountain View Cemetery.

BETTER ON A HOT DAY.

The rock crushers in the Arroyo Seco in whose grinding the owners can hear only music, but which are alleged by property owners near by to emit frightfully discordant noises, have been quieting down since yesterday. Henry G. Peabody of No. 650 Prospect Square wrote a letter to the City Commissioners on the subject. He declared in it that he would rather have a bocce next door, to the home than rock crushers.

The Commissioners did not attempt to convince him that he is wrong in his choice.

"But," he writes, "it will be established in the Arroyo Seco that you would stop its operation in a week."

He also said that property owners who are bothered by the noise of the crushers are determined to put them out of business as soon as possible and that the matter to the court.

TO BUILD A NEW HOTEL.

Word has been received by David H. Boice, assistant manager of the Hotel Green, that D. R. Plumer, manager of the large caravansary, is soon to build a half-million-dollar hotel on Spring Lake. Mr. Plumer now owns the Esplanade and Broadmoor hotels there. For years he had made it his custom to pass the winters in Pasadena and the summers in New Jersey.

The building that Plumer expects to put up will, Boice says, be about the size of the west building of the Hotel Green, and it will be handsomely finished.

In his letter Plumer declares that his prospects are excellent for an excellent season in Pasadena this winter. He will probably arrive in the city the last of November. Many improvements have been made on the hotel.

SAFETY FIRST.

Hans Kettensbach, well-known architect and one of the first Masters of the Pasadena Lodge of Masons, died yesterday morning at his residence, No. 849 South Madison avenue, at the age of 69 years, after a long illness.

He was born in Canada and came to California thirty years ago. He retired from practice in his profession several years ago, but had led a busy life and designed many prominent buildings that stand in different parts of Southern California. He leaves a wife and two sons.

The funeral services will be held at the chapel of Ives & Warren at 10 o'clock this morning, and Masons especially are invited to attend. Rev. Leslie E. Learned will officiate. Interment will be made in Mountain View Cemetery.

CITY BRIEFS.

The year book of the Pasadena Daughters of the American Revolution is now on the press, and the volumes will be distributed within a short time. The programme for the coming winter is exceptionally interesting.

An amended complaint has been filed, and Leo Misch was arrested several weeks ago on a charge of fraudulent advertising. He will plead to it before the Justice of the Peace Dunn at 10 o'clock this afternoon.

The City Commissioners yesterday discussed the question of enacting an ordinance providing for an inspection of the gas appliances.

GLENDALE BABY SHOW.

TWO HUNDRED ENTERED AND MANY WIN PRIZES—Tuesday Afternoon Club to Hold Lawn Fete.

GLENDALE, Sept. 10.—In the baby show just concluded the following children were awarded prizes:

Children up to 15 months—Girl winner, Miss Lois Merriken, 7 months, weight eighteen pounds; boy winner, Emel Hesse. Prizes in each event, sterling silver mug.

Children from 1 to 5 years—Girl winner, Miss Helen Kurn, 2 years, 3 months, weight thirty-three pounds; boy winner, Billy Hanson, 3 years, weight thirty-two pounds.

Twins—Kurtess and Kurtessa Kelly, 3½ years.

There were 200 entrants.

AFTERNOON FETE.

Preparations are being made by the Glendale Tuesday Afternoon Club for a lawn fete, which they will hold on September 29, from 4 to 11 o'clock p.m. This will be a carnival of nations, and will be held on Orange Avenue between First and Second streets, several of the spacious lawns being used. A number of nations will be represented, each to have one lawn entirely to itself.

In the afternoon, after an entertainment, a Dutch supper will be served from 4 to 7 o'clock. In the evening the grounds will be prettily illuminated with many colored electric lights, and at 8 o'clock a concert, rendered by the band of this valley and Los Angeles, will be given.

The following women have charge of the various sections of the affair: Spanish booth, Dr. Jessie A. Russell; Colonial booth, Mrs. R. E. Chase; French booth, Mrs. L. O. Johnson; American booth, members of the executive board; ice cream and cake, Miss Goff; Dutch supper, Mrs. Daniel Campbell and Mrs. Charles Evans; program, Mrs. Jessie Baker and Miss Evans; Kelly, Illuminating Co.; Mrs. J. W. Usdian; advertising, Mrs. E. H. Williford; tickets, Mrs. E. W. Kinney. Mrs. Mattison B. Jones, president of the club, is overseer of the entire affair.

NWS BRIEFS.

The preliminary work on the improvement of Broadway between Brand boulevard and Central avenue, was started Monday morning. This work is being done by the Barber Asphalt Company of Los Angeles, which has been awarded the contract for the improving of the whole of Broadway from Central avenue to Glendale avenue. This first strip of work will be completed within ninety days.

After being without a regular pastor for several months, the First Baptist Church of this place has issued a call to Rev. Mr. Troy, who up to this time has been pastor of the Atherton Baptist Church of Los Angeles. The selection of Mr. Troy, who will begin his ministry October 1, was made by a board of deacons, composed of H. F. Fryer, chairman; James Hoffman, W. T. Wood, Edwin Rose and C. E. Reed. Later the congregation ratified the action.

WITHDRAWS FRANCHISE BID.

What may be the object of the Pacific Electric Railway Company in its action today in withdrawing its bid for the franchise advertised for sale over Market street, occupied for some time past by the Southern Pacific steam power line, is a question of consequence. The City Council granted the request.

W. V. Hill, the company's contract agent, personally presented the application signed by President Paul up to the City Council, and took occasion to state that the action was not in any way feeling on the part of the company.

He went so far as to intiate that the withdrawal of the bid was due to the recent action of the Board of Supervisors in rejecting the petition to make it possible for the company to have a desired right-of-way through the center of Magnolia avenue, be-

HIGHGROVE BOOSTERS BOOST Project to Provide Highway.

RIVERSIDE, Sept. 10.—Three of the participants who were in yesterday's thrilling road races at Corona are being treated at the Riverside City Hospital and all are doing nicely, according to statements of the physician who are attending them. In fact, all doubt as to the recovery of any of the maimed men has passed and the Admissions Day event will go down in history as free from any fatality.

The most seriously injured, William Warren of Alhambra, mechanician for William H. Rhodes, driver of the Studebaker, No. 5 in the light car event, recovered consciousness this afternoon. He is able to take water administered him through a tube. He is suffering from concussion of the brain, his right cheek is cut through and there is a slight swelling over the right eye. His wife is with him.

Rhodes, who is suffering from a severely wrenched back, is also at the hospital. Although suffering a good deal of pain, no broken bones were discovered and it is believed he will be as good as new in a few months at most. His wife is at Oldfield's mechanic, Frank Sandhofer of Los Angeles, will also recover. His back was bruised and torn as a result of the performance of the Mercer after it was shorn of a wing, eight inches, in length. Sandhofer recounted to his physician today his rough experience, and some of the sensations that impressed themselves on his brain at the time he noticed the tire begin to loosen from its moorings on the swirling wharf.

Warren Oaks of Temecula, who sustained a broken leg when he was pinched against a tree by Oldfield's careening car, is at the County Hospital.

Oldfield, the Glendale Water Company and the Marengo Avenue Water Company, also the buying of water at wholesale rates from Pasadena. Reservoirs will also be erected to supply a higher pressure and larger supply of water.

Plans for the sewer include the putting in of a complete system to supply the entire city and of a plant for the disposal of the sewage.

WITHDRAWS FRANCHISE RID.

What may be the object of the Pacific Electric Railway Company in its action today in withdrawing its bid for the franchise advertised for sale over Market street, occupied for some time past by the Southern Pacific steam power line, is a question of consequence. The City Council granted the request.

W. V. Hill, the company's contract agent, personally presented the application signed by President Paul up to the City Council, and took occasion to state that the action was not in any way feeling on the part of the company.

tween the city limits of Riverside and Covina.

Whether this means that the company will abandon for an indefinite period its plans for building to Corona and reaching Los Angeles and the seaboard by that route, is a question that will be uppermost in the minds of Riversideans and others interested, until the company makes another move in the direction of securing a right-of-way to the Circle City.

HIGHGROVE BOOSTERS BOOST.

Although not an incorporated community, the settlement of Highgrove, in the center of a large orange-growing district northeast of the city, had a big booster picnic today on the Highgrove school grounds that was unique.

The affair was under the auspices of the city Chamber of Commerce, and was arranged to boost the following projects: The formation of districts to provide for fire protection and electric lights, and an extension of Center street around Blue Mountain.

Highgrove is located in a hilly region.

The project was to be the construction of a bridge across the San Joaquin River, which flows through the canyon, which would connect Highgrove with the road to the Imperial Valley by way of Beaumont and Banning.

W. W. Ayers, president of the Chamber of Commerce, delivered an address, outlining the plans proposed for securing the improvements mentioned, which will be described in petitions to be presented to the Board of Supervisors.

SOUTH PASADENA BONDS.

Half Million Dollars Voted for Various Improvements—Schools Enrolling Many.

SOUTH PASADENA, Sept. 10.—Bonds for \$550,000 were authorized last evening by the City Trustees and the date of the election was set as October 8. The resolution providing for the bond issue divides the money into five parts, and \$300,000 will be used for water, \$200,000 for sewers, \$28,000 for better fire protection, \$12,000 for paving the approach to the bridge over the Arroyo Seco at the Cawston Ostrich Farm, and \$10,000 for a city farm.

The resolution of intention providing for the calling of an election set for November 10, was adopted for the improvement of the water system and the trolley system.

Some of the property owners were favorable to the construction of the road by private capital, but the Socialists have proposed a measure to have the road built by the city.

HIGH SCHOOL ENROLLMENT.

Registration in the South Pasadena High School numbered approximately 250 yesterday and fifteen who came in to register bring the total enrollment to 265. This is a record of more than 100 over the number last year. A large part of this is due to new families who have moved to South Pasadena during the past year.

ADMISSION DAY.

Admission Day exercises were held, but on account of no preparation the entertainment was of an informal nature. A history of the State emphasized the significance of the day was given, with patriotic songs.

released on \$3000 bonds, pending the
action of the higher court on his ap-
peal.Norcross, the president, the di-
rectors and other officers and em-
ployees of the company are under in-
diction for conspiracy to defraud
the government of hundreds of thou-
sands of dollars in connection with
imported coal. The books were
seized several months ago by order of
the United States Attorney and it is
now the contention of Norcross that
he cannot be made to turn them over
to the Federal grand jury where they
might be used as a basis for fresh
indictments of himself and his followers.At this time Norcross was
already under sentence to pay a fine
of \$2000 for the same offense.

TACOMA, Sept. 10.—[Exclusive
Dispatch.] Great commercial de-
velopment on the Pacific Coast is ex-
pected by Dr. I. M. Goldstein, profes-
sor of political economy at the Uni-
versity of Moscow, who is in Tacoma
today en route to Los Angeles and
other coast cities. He says:"My investigations are purely
scientific. I am on this Coast to
learn what may be done to promote
commerce and will make a scientific
report to the Prime Minister of Rus-
sia. After Panama Canal is opened
I will return to see if the Pacific
Coast has developed Siberia, not
as rapidly, however, than country
is being developed. It is probable
line of Russian steamships will be
operated between Odessa, Vladivostok,
Pacific Coast ports, and back to Odessa."Dr. Goldstein refers to the Russian
volunteer fleet previously announced
as about 1000 ships in trans-Pacific
trade. Los Angeles will be one of its
ports of call. This is the first an-
nouncement that the line will start
at Odessa, making Turkish and
oriental ports, besides continuing to
Los Angeles, and through the Pan-
ama Canal to New York.Regarding the canal, Dr. Goldstein
says:"I believe that the opening of the
Panama Canal will mean an economic
revolution throughout the world.
What its immediate effect on the Pa-
cific Coast will be no man can say.
But I believe that the ten years after
the opening of the canal will be
as great as those on the Pacific
Coast since taken place during
any like period. All present large
coast cities will become world ports."

SAN FRANCISCO, Sept. 10.—Alfred Sparrow never drinks liquor, but he was made intoxicated yesterday by
alcoholic fumes in the winter where he works. He and six or seven of his fellows into a corner, exhilarating them with lusty
rauxes that threatened their lives.

Policemen were summoned and knocked Sparrow senseless. Immediately the men he had beaten surged up, seeking vengeance. With difficulty the officers got their prisoner to the street, where they
overpowered a four-horse wagon, banded their man in set off at a gallop for the nearest station, with a furious mob, growing in number at every block, howling behind. The pursuers finally were distanced.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

Negroes who allege that they have discovered objectionable notations on the City Assessor's field books, before annexing certain properties as "occupied by negroes," and that these notations were erased after they had discovered them, say that they will take the subject to the grand jury, alleging malpractice in public records.

The statement was made yesterday that the Public Service Committee of the City Council will not recommend Mayor Rose's plan for a large committee to consider annexation plans, but will allow individual districts to hold a separate election, to show its attitude before the general question is submitted to the voters of the city.

Representatives of wholesale business houses asked the Safety Committee yesterday to set aside the district east of Main street as exempt from any provisions prohibiting the use of sidewalks by business houses in handing their goods.

The City Council yesterday denied the protests of property owners against the character of paving work in the El Centro improvement district. The work is to cost the property owners about \$100,000.

The City Council yesterday voted to ask the State Railroad Commission to fix the rate for natural gas to the city boundaries, and the Public Welfare Commission asked the Council for the removal of W. J. McNeely, president of the Public Utilities Commission, because of his attitude on the natural gas controversy.

At the City Hall.

WORD "NIGGER" RAISES RUMPS.

WRITTEN IN ASSESSMENT FIELD BOOK OF CITY.

Negroes Alleged They Discovered Objectionable Notations and Then They Were Erased—Will Go to Grand Jury With Charge of Mutation of Public Records.

The words "occupied by negroes" and "occupied by dagoes," alleged by negroes of this city to have been written in the field books of the City Assessor's office, and then erased when the wording was discovered by negroes, has raised the latest commotion at the City Hall.

The allegation that public records have been mutilated will be made to the grand jury this week, decided J. L. Edmonds, editor of the Liberator, a negro newspaper, yesterday, when discussing the subject.

Deputy City Assessor Conrad stated yesterday that the notations as to "negroes" had been made by a temporary field deputy who is not in the employ of the office, this notation having been made in the column devoted to the description of what occupies the property. He stated that the protest to be denied and this action was promptly taken. The improvement will cost the property owners about \$100,000.

New Fire Company.

The Fire Commission was notified by the acting Fire Chief yesterday that a hand-drawn chemical wagon had been located in Sierra Park at G. E. Decker's garage at Paloma and A streets, and a crew of volunteer firemen has been organized for that district.

Want Fire House Site.

The city is now advertising for submission of offers of lots for a firehouse site within the district bounded by Vermont avenue, Forty-sixth street, Compton avenue and Honduras street. It is proposed to move to the lot selected the old fire house now at 11th and Central avenues, where a brick structure is to be erected, to house more extensive equipment.

Asks for Gas Rate.

The City Council yesterday by unanimous vote adopted the resolution of Councilman McKenzie asking the State Railroad Commission to fix the rate for natural gas delivered to the city limits. The subject did not call forth any special discussion.

The Public Welfare Commission sent to the Council resolutions demanding the removal of O. O. McKenzie from the Public Utilities Commission because of his attitude on the natural gas controversy. These resolutions were referred to the Public Utilities Committee of the Council.

CORRIDOR GOSSIP.

MUNICIPALITY NEWS.

Councilman Reed has selected

John C. P. Conroy to represent the city at the meeting of the League of California Municipalities, to be held in Venice October 6 to 11.

Final action on the proposed ordinance to regulate the soliciting of funds from the public for charities was taken by the Council yesterday afternoon in order to allow the City Attorney time to review the draft of the ordinance.

The City Council was visited yesterday by the State Railroad Commission to discuss the proposed new rate for the Los Angeles aqueduct water.

The men particularly interested in this matter appear to be Titus Alexander, Dr. Leggett, John Hall and J. L. Edmonds.

SEPARATE ELECTIONS.

ON ANNEXATION PROJECT.

Fred L. Borch, representing the San Fernando land owners who are anxious for annexation to the city, called a meeting of the Public Service Committee members yesterday regarding the project, and declared that the valley is ready to vote to annex itself to the city and would gladly bear its burdens thus imposed, in order to secure its share of the Los Angeles aqueduct water.

The Public Service Committee of the Council is to make a report within a few days on the measure of Mayor Rose, proposing a committee of thirty-nine, to represent the city and districts in which aqueduct water can be supplied, to plan a campaign for the general annexation of the valley.

Councilman McKenzie, a member of this committee, said yesterday that the report will, without any intentional discourtesy to Mayor Rose, refuse to recommend his plan for such a committee, but that it will recommend that each of the districts interested proceed to hold separate elections on the question of joining the city, so that the sentiment of outside places may be ascertained before the city is put to the expense of submitting the question to the voters.

It is expected that this report will be made to the Council soon by Councilman Borch, chairman of the Public Service Committee, who returns from his trip along the aqueduct, where he is now with Mayor Rose and Chief Engineer Mulholland.

May Exempt District.

The subject of sidewalk obstructions and business houses was before the Public Safety Committee of the City Council yesterday, and called forth statements from Secretary Gregson of the Jobbers Association and other business representatives.

The implement men wanted permission to use the sidewalks on Los Angeles street to display wagons and implements; Gregson asked that the streets east of Main street be exempt from provisions prohibiting the use of sidewalks in packing or unpacking goods and handling shipments, and that the city pay the cost. The Pacific Transfer Company wanted permission made so that fifty per cent of the sidewalk space could be used by business houses for such purposes.

with restrictions as to hours when no such space shall be used. The subject was taken under advisement.

Fowl Notes Annoy.

A petition was sent to the City Council yesterday, asking that an ordinance be adopted prohibiting within the residence district the establishment or maintenance of any poultry business where killing is done for markets, hotels or restaurants. Petitioners ask that district be designated wherein such establishments may be maintained. They say: "The constant squawking of chickens, crowing of roosters, quacking of ducks and calling of geese at all hours of night and day makes sleeping at times impossible."

Phillips Block Case.

The Board of Public Works was asked to order yesterday the serving of notice on the owners of the Phillips block to demolish that structure at once when action was delayed one day, in order that it be delayed no longer than necessary.

The City Council yesterday denied the protests of property owners against the character of paving work in the El Centro improvement district. The work is to cost the property owners about \$100,000.

The City Council yesterday voted to ask the State Railroad Commission to fix the rate for natural gas to the city boundaries, and the Public Welfare Commission asked the Council for the removal of W. J. McNeely, president of the Public Utilities Commission, because of his attitude on the natural gas controversy.

NEW CHAPTER IN DOMESTIC STORY.

DIVORCE COMPLAINT FOLLOWS DISMISSAL ONE SUIT.

Received Bill for Tuition of Girl Student in Chicago Shorthand School May Prove Most Interesting Exhibit of Trial—Desertion Is Basis of Suit.

Another chapter was added yesterday to the story of the domestic troubles of Charles R. Baker and his wife, Bertha E., when the wife filed a divorce complaint through Attorney Shumway preferred by her.

Baker was arrested Friday. When the case came before Judge York yesterday Baker's attorney, A. P. Narlian, stated that the true facts appeared to have been concealed from the court. Instead of being destitute, Narlian pointed out, Mrs. Baker is in easy circumstances, as her rich attire indicated. Judge York made an order of dismissal.

Jewer, which she wore and which Mrs. Baker alleged belonged to her, were returned to him. He gave bonds in \$1400, guaranteeing the Sheriff against indemnity.

Mrs. Baker formerly was the wife of a wealthy resident of Galesburg, and, according to Baker, is worth \$70,000. Baker married her at South Bend, Ind., March 1, 1906. She gave him \$3000 to invest in a hotel, she alleges, and sum ranging from \$100 to \$500 every few years.

When she refused longer to accede to his demands for money, she says, he refused to speak to her. She also charges intoxication and desertion, and says she saw a woman employee of the hotel kill him.

A regular bill for the tuition of a young lady in a Chicago shorthand school may prove an interesting exhibit of the divorce suit. Mrs. Baker alleges that Baker refused to make any explanation of the bill. She asks \$1000 monthly alimony, and \$1000 attorney's fees and desires to assume her maiden name, Bertha Schars.

BIXBY CASE.

MILLIONAIRES' TRIAL TODAY.

The trial of George H. Bixby, Long Beach multi-millionaire, on a charge of conspiracy to defraud several former inmates of a notorious apartment-house, is scheduled to begin in Department Nine of the Superior Court this morning.

Judge Oster of San Bernardino county will preside. Strict rules will be observed to prevent a morobr crowd gathering.

Deputy District Attorney Keyes will appear for the State; Oscar Lawler for the defense. The trial may last for a week. About eight witnesses will be called by the prosecution. The defense will be represented by Helen Cleo Barker, Marie Brown Levy, and Myrtle O'Dair are the principals.

In case of a conviction the maximum sentence is one year in the County Jail, \$1000 fine, or both fine and imprisonment.

LARGEST BOND.

NEW RECORD FOR COUNTY.

Mrs. Emily Brinham gave a \$1,000 bond yesterday, the largest ever filed in the Superior Courts of this county. As the administrator of the estate of her father, she was required to give a bond in double the amount of the estate. Her father, Edward A. Lynd, died August 3, 1918.

The estate consists of real estate in the Wilshire district and stocks and bonds. The heirs are the daughters, Ethel F. Ekstrom of the home of Josephine St. Paul, May Brinham, Del Moine, Emily Brinham of the Hershey Arms, and Samuel C. Anderson of this city.

NAMES MUSICIAN.

A cross-complaint filed by Walter Mayr yesterday in the separate maintenance suit of his wife, Ann Etta Mayr, introduced the name of Josephine Gammie, as one cause of the domestic infidelity. The cross-complaint, allowed by Judge Works, asks that the bonds of matrimony be dissolved.

Mayr alleges his wife employed eight lawyers in fighting the suit and that these lawyers cost him \$21,000. He spent for his wife's maintenance \$3650, and the court costs were \$900. The fees for witnesses were \$1000. Most of these liabilities were incurred in criminal suits.

Mayr, on the stand yesterday, was cross-examined as to expenditures. She asks \$500 a month for her support.

She is represented by former Judge Tracy. Mayr's counsel is former Judge Tracy. Mayr is a son of Walter Mayr.

The Mayrs were married at Macon, Ill., January 2, 1894. Mayr alleges his wife deserted him September 14, 1904, and again in July, 1907. He further charges her with maintaining a second home and in some cases the loss of a normal while there were thirteen fire alarms.

The City Council was visited yesterday by the State Railroad Commission to discuss the proposed new rate for the Los Angeles aqueduct water.

The Public Welfare Commission

asked the Council for the removal of O. O. McKenzie from the Public Utilities Commission because of his attitude on the natural gas controversy.

These resolutions were referred to the Public Utilities Committee of the Council.

CASE SUBMITTED.

OLD TRUST-FUND SUIT.

Judge Doheny of Los Angeles, before whom the case was tried before him several months ago, took advantage of his presence here yesterday to dispose of a motion involving a trust fund in the suit of Earl R. Clemens against Wellington Gregg and others.

The parties in this suit were represented by former Judge John B. Clayton and Walter H. Lindforth of San Francisco. Benjamin H. Tatem of Helena, Mont., attorney for the trust fund, and Charles E. Henderson of Los Angeles, attorney for the defendants, were present.

He mentions one instance when, against his wishes, she joined a company of musicians and toured South Dakota.

COURT'S CRITICISM.

The non-appearance of two lawyers retained to defend Bartolo Vasquez, charged with a statutory crime, caused Judge Jackson to make some pointed comments from the bench yesterday.

He said: "I am sorry to say that an apology was due to the District Attorney for the delay. The case was transferred to Department Eleven and the defendant will be given opportunity to retain new attorneys. If he cannot pay them, the court will assign competent counsele.

GAMBLING INQUIRY.

The grand jury resumed its investigation of gambling in Los Angeles yesterday.

District Attorney Shannon examined a number of witnesses. The grand jury, the District Attorney and Chief of Police Sebastian are working in common.

The inquiry will be re-summed Friday.

INCORPORATIONS.

Antelope Valley Implement Company, incorporators Leo Harris, C. E. Henderson, William W. Wurzburg, H. C. Henderson, and Frank C. Johnson, of the Capital Club, incorporated \$500; the Delmar Club, incorporators Nick Barnes, Henry Lopisch, Tony Fusich and C. L. Johnson.

SUES ON REALTY DEAL.

WILLIAMS IS SENTENCED.

William Lewis Rose, who was convicted of assault with a deadly weapon on W. W. Jenkins, was given a sentence of three years in the County Jail by Judge Jackson yesterday.

The court stated that he did not wish to put the stain of a penitentiary sentence on the defendant.

LEIFIELD HAS A CLOSE CALL.

Fills Bases in Ninth and Allows Two Runs.

Gene Krapp's Wildness Loses Him the Game.

Seals Grab Third Straight from the Beavers.

(BY DIRECT WIRE TO THE TIMES)
SAN FRANCISCO. Sept. 10.—[Exclusive Dispatch.] There was a regular Leifield finish at the Valencia street grounds today. Leifield finished, if you don't know just what the term means, is to have your own club well set in front right up to the finish and then sweep, but not quite, give the enemy a chance to put over a Garrison ending.

It isn't the first time that the ex-major leaguer has treated us to the same sort of a thrill, and yesterday he did practically the same thing. With the score 4 to 8 in his favor up to that final, and one down on the hardest kind of a chance, the Letfield person proceeded to kill up the bases and then sweep, but not quite, give the enemy a chance to put over a Garrison ending.

KRAPP IS WILD.

For all that, the 4 to 8 wind-up was as much due to the craftiness of Leifield as to his own skill. The game of Gene Krapp, who by free interpretation entered practically speaking into all the run-getting of the Seals.

Krapp was in trouble at the very outset and two runs were annexed before he was fairly under way. He walked Mundford and McAdie, then hit him with a single, but Krapp didn't locate the plate. Activities were halted while Jimmy Johnson with a grounder to Krapp forced Mundford at third. Then the work was resumed. Krapp loaded a shot to center field that scored McAdie and Johnson, stepped on third, had a double, and when Downs put out a sacrifice fly to center.

Portland made things hum in the sixth, even if there was no scoring. Leifield walked Krapp and Chadbourne laid down a bunt toward third, beating it out. Derrill fled to Johnson and Rodden forced Krapp when he pine down to start.

CLOSE DECISION.

Lindsey beat in field hit and there was a close play when Speas was out by way of third to first. Johnson with his own two-baser in the seventh, an advance to third on Hogan's infield out and a wild pitch charged to Krapp gave the Seals their third tally in the eighth.

The last of the runs in the seventh, the inning in the way that saw the exit of Krapp as the heaver, was a hit. With two down and Clarke and Mundford having walked, Chadbourne miscalculated McAdie's fly and then dropped it. The result was a score for Clarke.

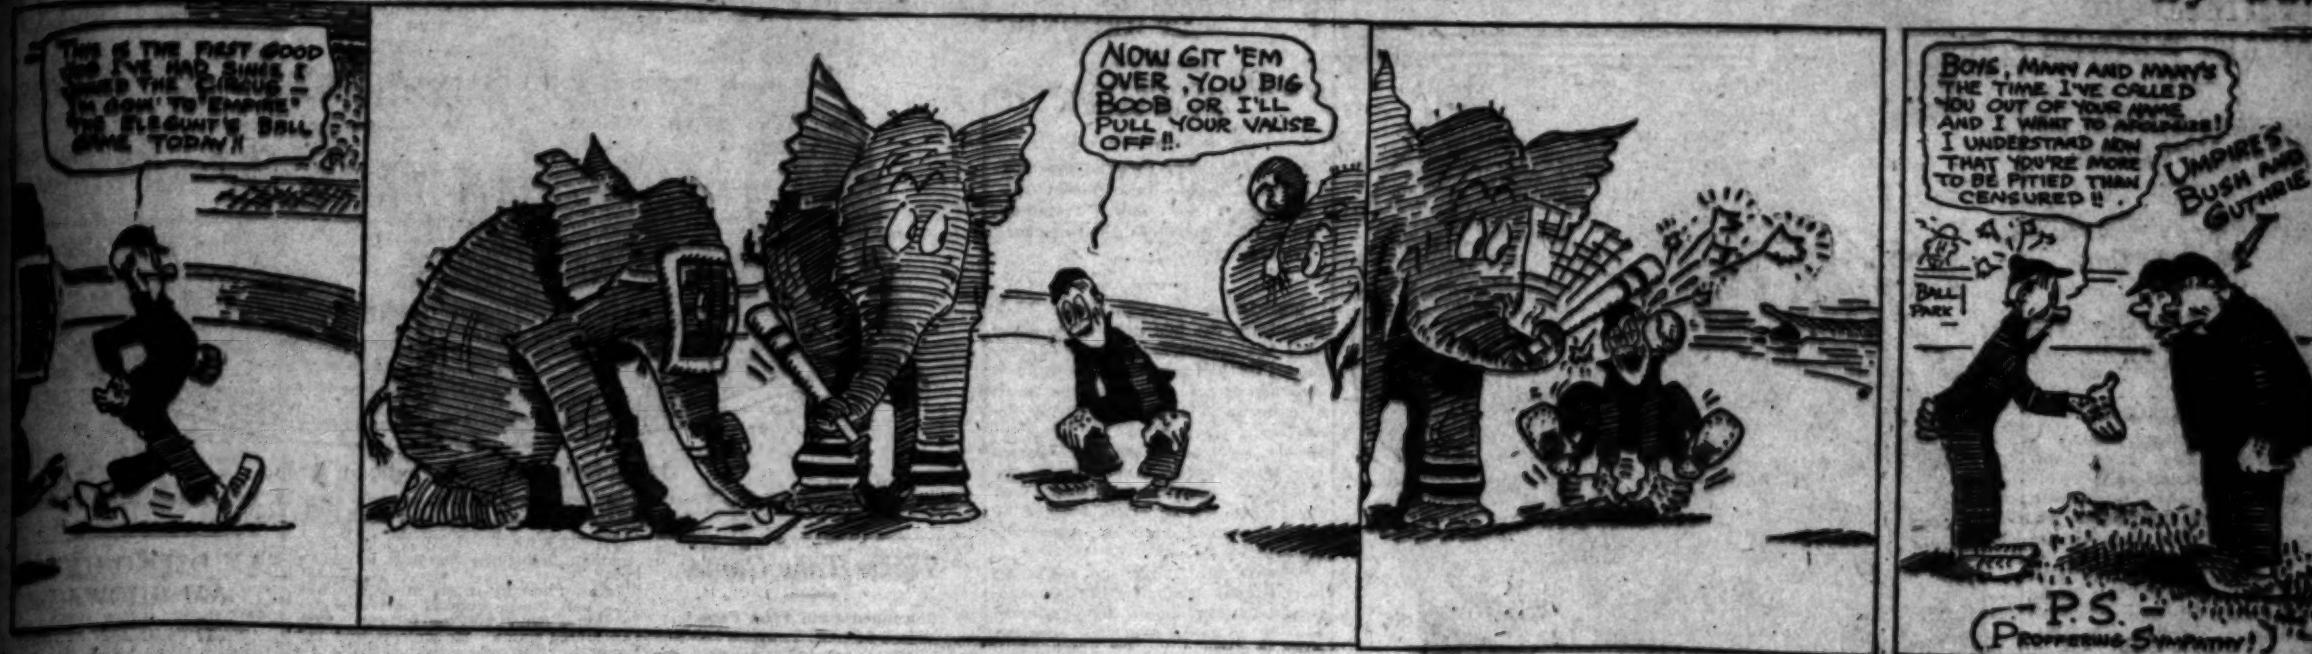

THAT WARM FINISH.

Portland's stirring finish came about because of the good work of McAdie's part in handling a throw to Leifield at first. Lindsey snatched a single through third to left field and Speas rapped the ball to right. Lehr drew four wide ones and Kores was the first to accomplish the task of getting two to the men, but Harry Krapp, who had followed in behind Krapp as pitcher, couldn't do better than bounce the ball at McAdie who once more let Leifield take the bag.

Mr. Titus Wad Says That an Umpire's Life Isn't All Beer and Skittles!—By Gale.

Baseball.

BASHEAR RECOMMENDS JOHNSON FOR THE DRAFT.

The Differences on Ball Field Did Not Blind Roy Johnson to His Sterling Qualities as a Player—Tigers Expected to Put in Draft for Outfielder Messenger of Birmingham.

BY HARRY A. WILLIAMS.

ROY is not dead, all the reports to the contrary notwithstanding, nevertheless.

By Bashear has recommended Johnson for draft to an American League club and it hasn't been known since Ray assumed control of him. Roy is now in Boston, living in a rooming house, and it was confidently expected they would never speak again.

Bashear, wild right in his eye, was having a fine resemblance to a bear when he came to town, then proceeded to walk around the pasture for a few hours. Roy and Johnson were very friendly and it was confidently expected they would never speak again.

Now comes all those reports, which the manager has sent directly to his agents, that he may not receive the collections which he has been sending him.

Being a great friend of Oldfield's, he was glad to find that Barney still had his rabbit's foot with him.

Berry Opposes Options.

Henry Berry, president of the Los Angeles baseball club, has taken a favorable option on the services of men who come from the majors to the minors with a string attached to them about the size of a hawser cable.

His narrow escape in the Marguerite case opened his baby blue eyes to the ways of the system and he wants to do something about it.

He has been trying to combine for a fight against it at the annual meeting of the minor league baseballs in Columbus this winter.

He does not believe the majors agree to be good sport to minor leagues without retaining a string on him, and in addition they generally ask for an option on the entire club.

The tendency of this is to undo the work of building up a winning team.

Berry believes that the minors should have the privilege of buying their men outright. This is the way can a manager feel certain of placing a strong club in the field the following season.

Washington Worries Naps.

Washington seems to be in the Nemesis of the big league managers, for Griffith's Indians have beaten Cleveland all the time, and the club, fearing that it will be beaten out of its competitive bids.

In view of the situation, it appears that St. Louis' Browns League club under consideration of getting a new plug manager.

He was there with his wife, Mrs. Johnson, and advised him to take the big league hook-up. In view of the club's poor record, fearing that it will be beaten out of its competitive bids.

Washington is in a difficult position.

The Naps owe their present position in no small degree to their ability to wipe up with the Boston Red Sox.

Birmingham's men have beaten Chicago's cohorts twelve times out of sixteen, and this is the reason of their standing in part to the fact that they have been able to whale their greatest rivals, the Naps, in a majority of their games.

The difference in the games won by the Athletics from the Naps just about represents the lead held by the former.

"Jinx" on Ellis.

Slanted from the press box, "Rube" Ellis seems to have more bad hair than any other player in the league.

The therefore of this is difficult to ascertain. None of the umpires appear to be riding him. They all look equally bad when umpiring behind him. "Rube," being a man with an uncomplaining disposition, doesn't say much, but when he does many a sympathetic glance over his shoulder at the erring umpire.

The arbiters simply can't see them right when working behind Ellis. Possibly the fact that "Rube" is slightly pigeon-toed affects the vision of the umpires, causing them to see things in an angle instead of a straight line.

This being the case, it is up to "Rube" to get his toes fixed.

Seldon Misses 'Em.

Patty O'Rourke is a wolf at getting the ball on a runner. Sometimes he misses them entirely, but then again he will slide head first to spike his phis right into the running spikes of the runner. Patty never considers his good looks when it comes to nailing his man and a player who eludes him must be slicker than an oil. Give O'Rourke a fairly decent man, and it is ten to one that he gets his man.

Burrell in Uniform.

Len Burrell is back in a Tiger uniform. Burrell has not yet back in the fold officially, but he is gradually yielding to the call of the diamond. He expects to work out with the club, however, he can't get away from business, and will be ready to take a hand should Hogan's forces become badly crippled.

ENGLISHMAN SCORE.

NEW YORK, Sept. 10.—[By A. P. Night Wire to the Times.]

THE English Cricket Club of New York, in its match today against the "Gentlemen of New York" at the Staten Island Cricket Club scored 387 runs for seven wickets in their first innings.

TROUT PARADISE IF YOU DON'T MIND SWIMMING.

I

F YOU don't mind taking off your clothes and wading up to your neck in water as cold as North Pole, there's a trout paradise waiting for you near Los Angeles.

William Hughes of The Times photographic staff has just returned from this sportman's garden of Eden and thus offers the tip for other late vacationers.

"We went from Los Angeles to Azusa and struck out from Azusa on Sunday at 6 o'clock, arriving at Rincon that afternoon at 5 o'clock.

We were on foot with our packs. We left Rincon at 8 o'clock that night and got to the trout club cabin that night after midnight. We grabbed a few hours' sleep and left on the trail again at daybreak.

"Up to this point the trail had been very good, but from this on the walking was very hard. There was practically no trail at all. We went

Oh, Very Well.

BOB M'ALLISTER SAYS HE WILL TAKE LONG REST.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Sept. 10.—[Exclusive Dispatch.] That Bob McAllister will no longer enter into matches at the recognized middle-weight limit is the announcement authorized by Manager Al McAllister. Further, the brother-manager decided long ago to fight four to six months before he considers re-entering the ring, and when he does the weight will have to be in the neighborhood of 165 pounds.

"He can't come in at 155 or 160 pounds, he's too strong to make showing," said Al. "Tommy [Petrovsky] is young, of a big frame, and is growing fast. We made a mistake in the weight he made for Petrovsky."

He guess he said, "The decision was all right."

Petrovsky, however, isn't satisfied with the verdict. He said that as he had forced the fighting and had given himself to his health, he should have been given the decision.

"I sure want to box McAllister again," he continued. "Next time I'll see the referee won't have to give a decision."

The sporting writers today are singing McAllister's praise for the courage he showed and his remarkable recuperation after he had been almost put out by the hard hitting sailor. For all that, the critics seemed

to have agreed that McAllister was not likely to shine among the middleweights.

I.A.A.C. Must Shut.

If the Los Angeles Athletic Club expects to make a shattering in the coming football season, those interested in the Rugby situation had best get a decided limp. It takes a nice stretch of time to get a team formed and ready for keen competition.

In the past, the L.A.A.C. squad,

made up of former varsity veterans,

had been too timid in sending its

team with the Trojans and the other teams of the south, but this year it will be different.

The U.S.C. squad is made up of men who all have had at least four years of high school experience, while many have played in the "big leagues."

SOUTHERN FOOTBALL IS COMING TO ITS OWN.

Local Teams Promise Speed and Real Class—Big Competition Has Given Squads Keen Edge—Snappy Scrimmage Takes Place at U.S.C.—More New Men Out for Trojan Machine.

BY OWEN R. BIRD.

ATER watching the Rugby practice at the University of Southern California for a week, it is now fairly safe to predict a decidedly different trend of events during the coming season than has held sway in the past. This not only holds true in regard to U.S.C., but also may also apply to the other institutions of college rank in Southern California.

Last season's big competition put an edge on the local "varieties" that is just beginning to attain its temper this fall. The day of the "star man" has past, the day of the "star variety" is dawning. Under the last-named condition it is best for all hands, on the other side, to have a look before leaving.

The fact that the southern colleges are now playing big universities and the University of Southern California regularly meets Stanford and California, has brought out the material from the local high schools. This means that the boys may, anyway, develop systems and procedures class, for where there is competition for place, class is a natural result.

Stanford and California are not going to any easy going this year on their southern trips. In fact, the U.S.C. football team stands nearly as good a chance of winning as did the track squad last spring.

There were two full teams on the field, besides a number of supers who graced the sidelines. One fact that was brought to the attention with some force showed only five veterans on the field, the remainder being made up of freshmen. The enthusiasm and spirit displayed was very commendable, once you overlooked the rather rough team play.

These young Trojans seem to have a great deal of respect, whatever, for any other of the fine amateur Ellings, and the way they play on the field stagers is something awful. Higgins seems to already have grounded the idea of scoring in his men, as their main object in life, at the present time, appears to be to get over the goal line.

No Sure Things.

It is decidedly evident that nobody is going to make a "sure thing" when it comes to procuring a "varsity berth. They are to be served up to the fastest, the best fighters, and the men with the greatest speed.

As stated before, the men out for the team now are mostly freshmen and for this reason it is very likely that when all the last year's squad men, "varsity" and scrub alike, arrive on the scene the Trojans can boast of the largest turnout in the history of the university.

More Material.

Three more very likely candidates registered yesterday in the persons of Fisher and Toland, former Los Angeles High School players of very fair ability, and Castreucio, one time Santa Clara man. The latter seems to have more than average knowledge of the game, while Fisher and Toland are both men who should make good after a while, under Higgins' coaching.

Toland is a fullback possibility, Fisher is a strong scrum possibility while Castreucio plays well at half-back. Don't be afraid to make a wing-man on the "varsity," and yesterday and I might say here that he does not look old and fat as was reported a few days ago. Tommy may not be the greatest football player in the world, but he has not become a candidate for the old "soldiers" home.

I guess he said, "The decision was all right."

Petrovsky, however, isn't satisfied with the verdict. He said that as he had forced the fighting and had given himself to his health, he should have been given the decision.

"I sure want to box McAllister again," he continued. "Next time I'll see the referee won't have to give a decision."

ARMSTRONG IS AGAIN WINNER.*Defeats Charles Maude and Shows Much Class.**Is Picked as Probable Winner of Tourny.**Jack Neville Will Probably Meet Him in Finals.*

By ALMA WHITAKER.

(BY DIRECT WIRE TO THE TIMES.)
DEL MONTE, Sept. 19.—[Executive Dispatch.] Prospects that the Coast championship will come south this year are most encouraging. E. H. Armstrong of Los Angeles defeated Charles E. Maude of Del Monte by 5 up and 2 in the third round match today on the Del Monte links, and Maude was regarded as the most formidable opponent that Armstrong would have to meet.

Armstrong was 3 up on Maude at the twelfth and dormy 3 at the fifteenth. Both men were approaching and putting in masterly style, that is the excitement of the game which is Maude's specialty, but it did not stop him at the sixteenth green. For two days now he has been making scientific approach shots that laid his ball dead for the hole. It was this deadly attribute which proved so utterly demoralizing to the Rev. W. H. Cornett yesterday.

WILL MEET WHITNEY.

Armstrong will now meet Vincent Whitney in the semi-final, repeating last year's history, and is confident of success if one may judge by the heavy wagers he is making on himself. But Whitney is no mean opponent; they call him the greatest player east here, and he proves the might of the uncrushable spirit of Armstrong himself, never giving up, no matter how discouraging the game may prove. He defeated H. V. Lindsay, Macbeth's conqueror, by 2 up and 1 yesterday.

Clinton La Montagne, a picturesque young man with Tyrolean tassels on his golf stockings, defeated Chapin Tubbs of Burlingame by 4 up and 2, something of a surprise, as Mr. Tubbs had established a good reputation and La Montagne is regarded as coming rather than come. And when Mr. Tubbs put out our own Jack Jeune the day before, he gave no indication of golf neuritis.

NEVILLE IMPROVING.

It is to be feared that La Montagne's triumph was a short-lived one, for he met Jack Neville, the holder of the title, in the morning, and Neville has been steadily improving his game each day and appears to have his championship form fully restored. It is almost a foregone conclusion that the battle will between Armstrong and Neville, as last year, with a marked leaning in favor of Armstrong this time.

But Neville defeated E. H. Johnstone of San Jose with appalling consistency, winning up and 5 to play, and this afternoon Johnstone had vanquished the ladies here. Harry K. Davis of Portland, yesterday in such masterly style. Mr. Johnstone did not seem to have a chance in the morning, and Neville just led him gently round the course.

Harry K. Davis, by the way, made the amateur record for the course in foursomes with Riley and Smith, the former winning yesterday, 30 out and 16 in total, 69, 2 under par. The figures were: 1, 4, 3, 4, 5, 3, 2, 4—35, and home 4, 4, 2, 5, 2, 4, 2, 4—34. Which merely goes to show, boy, uncertain, shy a game golf is the best part of its fascination, the nervousness sure.

PARDONS GRANTED.

We have but one competitor left in the Del Monte tournament, S. P. Parsons of the Los Angeles Country Club. But he is a host in himself, and we decline to feel dejected. He defeated Dr. Guy Cochran by 2 up and 1, today, to meet young Willis Crocker in the semi-final. Crocker defeated our Dr. Herbert C. Herbert, please, the doctor is rather touchy about that R) of Riverside by 1 up at the twentieth hole.

Mr. Crocker had Crocker 1 down at the tenth, but the doctor 1 up. Parsons won the next four, lost the fifteenth and won the next three. The doctor missed a 2-foot putt on the eighteenth for a win, they halved the nineteenth and were tied. The trouble is that Parsons settled the Riverside man's fate in the tournament. It being serious Samual therefore to keep his weather eye open tomorrow no matter how big a lead he may acquire early in the match.

G. W. Wright of Apawamis won from Gregory 2 and 1. Nixon of Claremont was from Arthur Brady of Annandale, 4 and 2, so that Mr. Parsons will meet one of those gentlemen in the final, we hope.

BAGGY SHINER.

In the championship flight Miss Cheshireborough defeated Miss Girvin by 5 up and 4. Miss Helen Dunning had made from Mrs. Hart by 4 up and 2, and Mrs. G. A. Parker defeated Mrs. Julian Thorne by 4 up and 5. Mrs. Herbert Munn of the Annandale Country Club had a good match with Mrs. G. D. Graves and won by 2 up and 1, showing some excellent work on the fairways. Miss Alice Warner beat Mrs. McRae by 4 up and 3, and Miss Josephine Johnson beat Miss Hotaling by 2 up and 1.

CASH CONQUEROR.

If happens again in the men's third flight where R. J. Cash of the Los Angeles Country Club meets Coogan of Claremont in the final. Cash covered himself with glory in his defeat of McNear by holding no less than twenty-one shots, the nearest being twenty-one from the green. Perfectly staggering.

Mr. Coogan won his match from Dr. Sallery of Long Beach by 3 up and 1. In the fourth flight Joseph Redding had to take Root to the twentieth hole to win his match and Martinson defeated Al L. Clark by 15 up and 14 down. The final flight was nineteen hard fighting for that fourth flight prize. In the fifth again we have a Southern man in James Long of the Los Angeles County Club who meets Taylor in the final.

The Taylor-Welch match went to the twentieth hole, but Long defeated Pammer by 5 up and 4.

other flights. Hottie won the third, defeating Frink 5 up and 4. Station won the fourth, defeating Coleman 3 up. C. W. Clark won the fifth, defeating Clemon 2 up and A. L. Brown won the sixth, defeating Knowles 1 up. This you know, is Abraham Lincoln's famous line.

He was born in 1809, and died by the immigration authorities in the long ago, but who now disports a full golf kit, knickerbockers, stockings and all, and walks about with a hand full of hundred-dollar bills.

Twenty-one's golf proceeds aplenty and is very artistic and athletic, but much of the play takes on pastel coloring, and is on the perfumed chiffon order.

Of course Miss Edith Cheshireborough, Mrs. H. C. Warner, Mrs. Pommer, Mrs. Cochran, Mrs. Herbert Munn and one or two others are workmanlike competitors, but the general impression is a pretty exhibition of battle duds and shuttlecock.

POOR CONDITION CAUSE OF MOST FOOTBALL INJURIES.

No Excuse.

BY DR. A. HALDEN JONES,

(Medical Adviser of U.S.C.)

A question that is up for frequent discussion in athletic circles is the comparative number and seriousness of the injuries incurred while playing the different types of football in America today.

The old style mass plays—"brute plays"—as they have been called, five or six men falling on one or being pushed across the prostrate form of a player; all these have been eliminated. The modern open plays are more interesting to the grand stand, more spectacular, easier for the umpire and fairer to the players.

RUGBY NOT SO SEVERE. One must use great care in making a comparison between the reconstructed American game and Rugby, which is being adopted by many universities in our own U.S.C. by Stanford, California and U.S.C.

The experience of these three universities shows that Rugby lessens the severity but not the number of injuries. The tabulated results for U.S.C. during the past three years bring out some interesting facts.

First, more injuries occur during practice than occur in the games.

EARLY INJURIES. Second, more injuries occur in the early games than in the later games, the latter having been singularly free from trouble.

Third, and as a corollary to the preceding observations, it has been noted that few skillful players are hurt, and this is probably the reason why there are so few injuries late in the season. The unskillful, awkward players have been eliminated, and to those remaining self-protection becomes second nature. Without any thought on their part the body relaxes at the proper time and the muscles are tense at the proper time; without knowing it, they acquire the art of falling well, when they do not fall.

Athletes of marked ability are now enrolled among the eighty-one men and officers of the battery, while their number is likely to be considerably increased through the fifty recruits to be added in the near future.

RALPH NOBLE HAS DOUBLE IN NAME. Last year we must mention a factor more or less peculiar to football players. These players, the world over, have a large amount of insensibility to pain. Pain is a warning nature gives for protection of the body. In plain words, pain in a knee joint means to stop using it. The constant tendency of players is to disregard these warnings.

This aggravates the disability. An injury, with a few days rest, may have recovered completely, is continued and magnified by the player keeping up practice and entering games. The final unsatisfactory result is not strictly chargeable to the game of football, but to a disregard to the warnings of nature and of every day common sense.

The best player on the team, if he attempts to play when injured, may lose the game for his school.

SPARTAN-LIKE. It may be mentioned in passing that many of the men who played on the eleven last season were not on the field the whole season, and some among those on the job. The list of the old-timers included Allen, Spencer, Powell, Cravens, Wyche, "Baby" Waddell, brother of Al and Harold, Foster, Catterson and Hirschman, the youngest member of the Cass family, who has been supplying great athletes for L. A. High and Stanford varsity for many seasons.

Mr. Coogan won his match from Dr. Sallery of Long Beach by 3 up and 1. In the fourth flight Joseph Redding had to take Root to the twentieth hole to win his match and Martinson defeated Al L. SOUTH PASADENA HIGH STARTS WELL.

Football practice was started at South Pasadena High School yesterday afternoon. Coach Herbert White, formerly of Whittier College, had almost three full squads out.

FOOTBALL ON AT REDONDO.**L. A. HIGH SCHOOL TEAM WORKS OUT ON SAND.**

Not Having Any Field to Practice on Capt. Brooks Takes Squad Out on Beach for Daily Training. Girls Help Considerably—Hope for Winning Team.

REDONDO BEACH, Sept. 19.—Combining the last days of vacation with the strenuous business of pre-season football practice, the strand at Redondo Beach has been the scene of many lively skirmishes during the last week, participated in by Fred Brooks, captain of the Los Angeles High School team, other stars of the L.A.H.S. "Knets," including Cliff Bowes and Ivo Lopisch, assisted by West, Mildred Huckins, Ivo Lopisch and Cliff Bowes.

Los Angeles High School, sad to relate, while preparing for the most successful football season in her history, has no field wherein to practice. Capt. Brooks, spurred by the necessity for a place for the advance training of several of the new season's stars hit upon the novel idea of combining football, play, and training at Redondo Beach. The general of his young huskies are now undergoing probably the most unique football training on record, swimming and runs on the beach being important features of the day's programme.

SOMETHING NEW. Football on the hard sand is especially interesting to the athletic maid of the beach, who daily report to Capt. Brooks for "practice" and are regularly included in the line-ups for live football. The girls are enthusiastic to their pretty training partners, declaring that the girls are excellent Rugby "material" being as sure and fast as many of the heavier boys. A girl's team of L.A.H.S. is spoken of as a possibility by some of the strenuous maids who have learned the game in the beach practice.

SPIDER IN THERE. After one overt act, "Spider" became as invincible as they make them, and the Angels did not get a single squat at him.

Hogan edging his way to remember that they are Tigers, and they responded by going through the Angels like an electric shock in the third. Hogan here forced Ferguson to quit, "Spider" Baum's promised forlorn of what was shaved down to one end, "Spider" armed over a wild pitch, releasing Krueger to the plate.
